Oak Brook Park District Dorothy and Sam Dean Nature Sanctuary

As the Oak Brook Park District celebrates its **50th anniversary**, its newest acquisition, the Sam and Dorothy Dean Nature Sanctuary, is being readied for a spring dedication. This 40-acre property of wetlands, forest, pond and prairie is dedicated to the preservation of natural flora and fauna of the Oak Brook area. An abundance of wildlife can be viewed there.

WARNING: High water is very dangerous. When water reaches close to the top of the banks or over do not paddle!
