Oak Brook Park District Organizational Chart

October 19, 2009

To the Board of Commissioners Oak Brook Park District

The Comprehensive Annual Financial Report of the Oak Brook Park District (the Park District) for the fiscal year ended April 30, 2009 is submitted herewith. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the Park District. We believe the enclosed data, as presented, is accurate in all material aspects, and reported in a manner designed to fairly set forth the financial position and results of the operation of the Park District as measured by the financial activity of its various funds. All disclosures necessary to enable the reader to gain an understanding of the Park District's financial activities have been included.

Independent Audit – Illinois Compiled Statutes, 70 ILCS 1205/9, require that park districts secure a licensed public accountant to perform an annual audit of accounts. The firm of Wolf & Company LLP has performed the audit for the fiscal year ended April 30, 2009. Their unqualified opinion on the basic financial statements is presented in this report.

Profile of the Government

The Park District is a special unit of local government, empowered by the State of Illinois with separate tax levying power, including debt retirement. The Park District was chartered by voter referendum in 1962.

This report includes all functions, programs, and activities of the Park District. The mission of the Park District is to provide the very best in park and recreational opportunities, facilities and open lands. Most of the Park District's services are provided in buildings and grounds owned and operated by the Park District.

Over the years, the Park District has grown in acquisition of open spaces, facilities and programs, and has played an important part in the lives of its citizens. The Park District has also continued to experience growth within the community, through residential and commercial development. The current estimated population is approximately 8,702. Assessed valuations of \$1,712.0 billion represent an increase of 6.6% over the previous year. The Park District and surrounding communities, together with the I-88 business corridor, provide an ever-expanding local economy.

Economic Condition and Outlook

Major Initiatives and Improvements

The Family Recreation Center is in its fourteenth year of operation, and the facility continues to grow as a community center. The Premiere Fitness Club maintains a membership of 1,532 individuals. The Family Aquatic Center currently has 859 members.

Capital park improvements were \$275,289. Park maintenance costs were \$391,229. The Park District continued to enhance the park settings by planting native plant species within its parks. Other improvements included the enhancement of the Central Park West facility entrance with a koi pond and perennial gardens.

Administrative Initiatives – The Park District has continued to upgrade its financial software, resulting in greater efficiency in the preparation of its financial reports. A major upgrade to the Park District's payroll system was completed during the fiscal year. The payroll is now prepared in-house rather than by an outside service giving us more control over our payroll processes. The Park District will continue to update its operations and financial handbook, documenting all policies and procedures for the Park District, and a master plan during the next fiscal year.

Racquet Club – This facility continues to operate effectively as the Park District's sole Enterprise Fund. Membership is currently at 1,050 members. The offering of new tennis programs and competitive matches has generated a new interest in the sport.

Future Initiatives

In January 2005, the Park District acquired possession of the Dorothy Dean Cavenaugh property. This property remains as part of the Park District's master plan for ecological restoration. The Park District intends to utilize the master plan to initiate restoration of the property as an environmental education resource and nature sanctuary. The grant application included enhancement of the wildflower gardens, wetlands and nature trails throughout the property.

In January 2006, the Park District was awarded an (OSLAD) Grant from the State of Illinois for the vegetative restoration of the forty-plus acre parcel known as the Dean property. The restoration includes the development of nature trails, restoration of native plants, canoe launch, fishing pier, parking lot and interpretative shelter. It is expected that the restoration will be completed by the end of our fiscal year ended April 30, 2010.

The Park District intends to allocate and utilize approximately \$185,000 in new capital projects during the next fiscal year.

Financial Information

Accounting Systems and Internal Controls – The Park District uses the modified accrual basis of accounting for governmental funds, with revenues recorded when available and measurable, and expenditures being recorded when the liability is incurred. Full accrual accounting is used for proprietary fund types.

The Park District's management is responsible for establishing and maintaining an internal control structure. The internal control system is designed to provide reasonable, but not absolute, assurance regarding safeguarding of assets against loss from unauthorized use or disposition, and the reliability of accounting financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived. The valuation of costs and benefits requires estimates and judgments by management designed to insure that the assets of the Park District are protected from loss, theft or misuse. Furthermore, management insures that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles.

The Board of Commissioners and the Park District's staff has implemented the recommendations received in last year's management letter, provided by the Park District's independent accountants as part of the audit for the fiscal year 2008. We believe that the current system of internal control existing within the Oak Brook Park District provides reasonable assurance regarding the safeguarding of assets and the reliability of financial records.

Budgetary Controls – Budgetary control is provided at the fund level by verification of appropriation amounts prior to expenditures, and monthly review of all account totals compared with appropriations. Budgets are prepared for all governmental funds. All expenditures are reviewed and approved by the Board of Commissioners prior to the release of payment.

General Government

Revenues — The Park District's objective has been to encourage resident participation in high quality programs and services to the fullest extent. Reasonable registration fees are charged for Park District programs. Property taxes increased due to an increase in the levy. Program fees increased due to the number of new programs offered. Property taxes and program fees are the principal sources of income for general operations. The Illinois Property Tax Limitation Act limits the property tax rates extended by the Park District. Current tax collections were 100.0% of the tax levy. Collection of property taxes has exceeded 99% over the past ten years. The revenues of the General Corporate Fund and Recreation Fund for fiscal year 2009 decreased by 0.5%.

Expenditures – The 2009 fiscal year expenditures increased by 5.3% over the previous year. Increases in expenses of the General Corporate Fund and Recreation Fund were due to increases in salaries, maintenance and repairs.

Proprietary Operations

The Park District, through the sale of revenue bonds, constructed the Racquet Club facility. Revenue bond indebtedness was retired with revenue generated by the Racquet Club, and did not use property taxes. In addition to debt retirement, revenues generated from membership fees, court rentals, guest fees and miscellaneous income have also paid all operating and capital improvement costs.

Debt Administration

During 2002, the Park District financed the expansion of its Premiere Fitness Center and Administrative Offices through the issuance of General Obligation Bonds (Limited Tax). Maturity schedules of these bonds are herewith located in the financial statements of this report.

District General Obligation Bonds have been rated by Moody's Investor Service as Aa3.

Cash Management

Cash temporarily idle during the year was invested in demand deposits, certificates of deposit and repurchase agreements. The Park District's investment policy is to minimize market risk while maintaining competitive yield on its portfolio. Accordingly, 100% of deposits were either insured by Federal Depository Insurance or collateralized. All collateral on deposits was held either by the District or its agent in the Park District's name.

Long-Term Financial Planning

The Board of Commissioners is committed to the completion of the Dorothy and Sam Dean Nature Sanctuary. With the assistance of the Du Page County Conservation Foundation and the Illinois Department of Natural Resources and the OSLAD grant program, the Park District has continued the ecological restoration and development of recreational amenities at the Nature Sanctuary.

Risk Management

The Park District is a member of the Park District Risk Management Agency (PDRMA), a joint risk management pool of park and forest preserve districts. The Agency provides certain loss coverage for workers' compensation, general liability, automobile liability, crime, boiler and machinery, public officials, and property damage claims on a partially self-funded basis. Members have a contractual obligation to fund any deficit of PDRMA attributable to a membership year during which they were a member.

Awards

In January, 2008, the Illinois Parks and Recreation Association awarded the Park District with three awards; first place for the Summer Catalog cover, second place for the Catalog Cover Series, and second place for the Electronic Newsletter. These awards are voted by the statewide memberships of IPRA.

Certificate of Achievement – The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Oak Brook Park District for its comprehensive annual financial report for the fiscal year ended April 30, 2008. This was the fourteenth consecutive year that the Park District has achieved this prestigious award. The Certificate of Achievement is a prestigious National Award, recognizing conformance with the high standards for preparation of state and local government financial reports.

In order to award a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. Such a report must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

The Certificate of Achievement is valid for a period of one year only. We believe our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the Government Finance Officers Association to determine its eligibility for another certificate.

Acknowledgment

The preparation of the Comprehensive Annual Financial Report was made possible by the dedicated service of the entire staff. The report is prepared at one time during the year, but would not be possible without the consistent attention to procedures and monitoring of accounts by staff. We appreciate the dedication of those responsible for the report, and thank members of the Board of Park District Commissioners for their interest and support, which has led to a sound financial position of the District.

Respectfully submitted.

Nancy Stratudee

Acting-Executive Director

Certificate of Achievement for Excellence in Financial Reporting

Presented to

Oak Brook Park District Illinois

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
April 30, 2008

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

INDEPENDENT AUDITOR'S REPORT

Members of the Board of Commissioners Oak Brook Park District, Illinois Oak Brook, Illinois

We have audited the accompanying basic financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and budgetary comparisons for the General and Recreation Funds of the Oak Brook Park District, Illinois, as of and for the year ended April 30, 2009, which collectively comprise the basic financial statements as listed in the accompanying table of contents. These basic financial statements are the responsibility of the management of the Oak Brook Park District, Illinois. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Oak Brook Park District's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Oak Brook Park District, Illinois as of April 30, 2009, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparisons of the major General and Special Revenue Funds for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The Management's Discussion and Analysis and the required supplementary information listed in the table of contents are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements of the Oak Brook Park District, Illinois. The accompanying information listed as supplemental data and schedules in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The introductory section and statistical information listed in the table of contents have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Oak Brook, Illinois October 19, 2009 Wolf & Company LLP

April 30, 2009

The Oak Brook Park District (the District) offers readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended April 30, 2009. We encourage readers to consider the information that we have furnished in the letter of transmittal (beginning on page ili) and the District's financial statements (beginning on page 13).

This discussion and analysis is designed to: (1) assist the reader in focusing on significant financial issues, (2) provide an overview of the District's financial activity, (3) identify changes in the District's financial position (its ability to address the next and subsequent year's challenges), (4) identify any material deviations from the financial plan (the approved budget), and (5) identify individual fund issues or concerns.

The major components of the financial statements are the statement of net assets and the statement of activities. The statement of net assets shows the total assets and liabilities of the District. Assets that exceed liabilities would be considered the current value or net worth of the District. The statement of activities reflects the total operations of the District for the past year, shown first net of revenues from taxes, interest and miscellaneous items, and then in total.

Financial Highlights

The total assets of the District exceeded its liabilities at the close of the most recent fiscal year by \$24,820,755, which increased by \$4,929 over 2008. Of this amount, \$4,704,898 is unrestricted net assets, which may be used to meet the District's ongoing obligations to citizens and creditors.

Fund balances for the District's total governmental funds were \$2,262,840 at April 30, 2009, which decreased by \$22,920 over 2008. Approximately \$2,134,852 or 94% of this amount is considered unreserved fund balance, and is available for spending at the District's discretion.

Property taxes levied for the current year were \$2,626,492, an increase of approximately 3.4% compared to the prior year's levy.

The District spent \$275,289 on capital outlays to maintain and develop parks and recreational facilities.

During the current fiscal year, the total debt decreased by \$235,000. During 2002, the District financed the expansion of its Premiere Fitness Center and Administration Offices through the issuance of General Obligation Bonds.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The basic financial statements are: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements

The government-wide financial statements incorporate all of the District's governmental and business-type activities, in a manner similar to a private-sector business using the economic resources measurement focus and the accrual basis of accounting.

Government-wide Financial Statements (cont'd)

The statement of net assets presents information on all of the District's assets and liabilities, with the difference between the two reported as net assets. The future increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions, that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the District include general government and culture and recreation. The business-type activities of the District include the Racquet Club. The District does not manage any fiduciary activities, such as employee pension plans.

The government-wide financial statements are presented on pages 13 and 14 of this report.

Fund Financial Statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. With the focus on significant balances and operations, major funds are reported individually, while all others are combined into a single, aggregated presentation.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on short-term inflows and outflows of available resources, as well as on balances of spendable resources available at the end of the fiscal year. This information is useful in evaluating a government's near-term financing requirements.

The short-term focus of governmental funds is narrower than the long-term focus of the government-wide financial statements, making it useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains individual governmental funds to control resources for individual activities or objectives. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for activities considered to be major funds. Major funds are those whose revenues, expenditures/expenses, assets or liabilities are at least ten percent of the total for their fund category or type (governmental or enterprise), and at least five percent of the aggregate amount for all governmental and enterprise funds.

Fund Financial Statements (cont'd)

Any fund may be reported as a major fund if management considers the fund particularly important to financial statement users. Data from the other governmental funds is combined into a single aggregated presentation. Individual fund data for each of the nonmajor governmental funds is provided in the form of combining statements on pages 42 and 43.

Major Funds	Nonmajor Funds				
General	Illinois Municipal Retirement (IMRF)				
Recreation	Audit				
Debt Service	Social Security (FICA)				
Canital Projects	Special Recreation				

The District adopts an annual appropriated budget. Budgetary comparison statements are included in the basic financial statements for the General Fund and major Special Revenue Fund (Recreation Fund), and demonstrate compliance with the budget. Budgetary comparison schedules for other funds can be found in a later section of this report.

The basic governmental fund financial statements can be found on pages 15 through 22 of this report.

Proprietary funds are used to report the District's business activities in enterprise funds and government functions in internal service funds. The District maintains an enterprise fund for the Racquet Club. This business-type activity is summarized in the government-wide financial statements, and presented in great detail in the proprietary fund financial statements. The detailed accounting for government-provided services is monitored in the Internal Service Fund, and also included in the governmental activities of the government-wide financial statements.

The basic proprietary fund statements are presented on pages 23 through 25 of this report.

Notes to the Financial Statements

Additional information that is essential to a full understanding of the government-wide and fund financial statements is provided in the notes to the financial statements. The notes to the financial statements can be found on pages 26 through 40 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information that provides greater detail on the District's financial operations for its major governmental funds, as well as the funding progress for IMRF. The additional financial schedules provide valuable information in understanding nonmajor funds, the revenue structure for our tax revenues, and the overall structure and uses for long-term debt.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. The District's combined net assets exceeded liabilities by \$24,820,755 as of April 30, 2009.

The largest portion of the District's net assets (79.7%) reflects its investment in capital assets (e.g., land, land improvements, buildings and improvements, machinery and equipment), less the related debt used to acquire those assets that are still outstanding. The District uses these assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's investment is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Table 1
Oak Brook Park District
Statement of Net Assets
April 30,
(in Millions)

	Governmental Activities		Business-Type Activities			Total

Total net assets		23.9	\$	23.8	\$	0.9	\$	1.0	\$	24.8	\$	24.8

Part of the District's net assets (\$121,841) represents sources that are subject to external restrictions associated with the District's general obligation bonds (alternate revenue source). Net assets of \$223,192 are restricted for capital projects. The remaining balance of unrestricted net assets (\$4,704,898) may be used to meet the District's ongoing obligations to citizens and creditors.

Governmental Activities

The governmental activities had an increase in net assets of \$89,546 in the current fiscal year, and ending total net assets of \$23,901,330. The unrestricted portion of total net assets is \$4,528,837 (18.9%), and is available to fund the District's ongoing obligations. As shown in the following tables, the net increase was primarily due to the increased property tax collections from the 2009 levy.

The direct expenses for governmental activities were \$5,445,846 this year (\$4,903,211 in 2008), with program revenue sources insufficient to fund the activities by \$2,915,898 (\$2,770,241 in 2008). These governmental activities were further funded mainly by property taxes.

A summary of the District's changes in net assets is presented in Tables 2 and 3.

2009 Revenue by Source

2009 Expenses by Function

Business-type Activities

Business-type activities in the District consist of the Racquet Club. Total net assets at the end of the year for this activity were \$919,425, an 8.4% decrease from the beginning of the year.

Operating expense totaled \$877,514 (\$841,080 in 2008), and depreciation expense was \$53,946 (\$56,688 in 2008).

The business-type activities had an operating loss of \$88,616 (\$78,058 in 2008), and net assets decreased \$84,617 (\$61,140 in 2008) in the fiscal year, due to the recognition of depreciation expense and increased expenses. The net loss in 2009 was more than 2008, due to the increase in salaries and wages and repairs and maintenance.

Financial Analysis of the Government's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with financerelated legal requirements.

Governmental Funds

The District's governmental funds provide information on short-term inflows, outflows, and balances of spendable resources. This information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The governmental fund balance as of April 30, 2009 is \$2,262,840 (\$2,285,760 at April 30, 2008), a decrease of \$22,920 from the prior year (increase of \$236,094 from 2007 to 2008). Of this total, \$2,134,852 (\$2,171,119 at April 30,2008) is unreserved and undesignated, indicating availability for continuing the District's operations.

Major Governmental Funds

The General and Recreation Funds are the primary operating funds of the District.

The General Fund's unreserved fund balance as of April 30, 2009 was \$767,878 (\$801,280 at April 30, 2008), a decrease of \$33,402 from the prior year. The total balance is unreserved and available for future operations.

The Recreation Fund's fund balance of \$927,574 (\$872,856 at April 30, 2008) has increased \$54,718 from the prior year. The unreserved balance of \$921,427 is unreserved and available for future operations and \$6,147 is reserved for prepaid items.

The Debt Service Fund's fund balance of \$121,841(\$114,641 at April 30, 2008) has increased \$7,200 from the prior year. The entire balance is available for future payments.

The Capital Projects Fund's unreserved fund balance of \$223,192(\$308,451 at April 30, 2008) has decreased \$85,259 from the prior year. The entire balance is unreserved and available for future capital improvements.

Major Proprietary Fund

The Recreational Facilities Fund is the only enterprise fund of the District.

The Recreational Facilities Fund accounts for the operation of the tennis and racquet club facilities. Operations include tennis activities, racquet club activities, and related merchandise sales. The cost of operations is recovered through user charges.

Net assets of the Recreational Facilities Fund were \$919,425 (\$1,004,042 as of April 30, 2008), a decline of \$84,617 from the prior year.

General Fund Budgetary Highlights

The District did not change the Fund's total operating budget for 2008 - 2009. The only revisions were transfers between line items.

The General Fund had revenues of \$1,982,185, which were \$8,445 (0.4%) under budget, and expenditures of \$1,830,587, which were \$169,253 (8.4%) under budget. The result was a positive net budget variance of \$160,808.

Table 4
Budget vs. Actual
Fiscal Year 2009

	<u>Budget</u>	Actual	Variance
Revenues:			
Taxes	\$ 1,352,000	\$ 1,346,161	\$ (5,839)
Program fees	586,930	598,674	11,744
Non operating revenues	51,700	37,350	(14,350)
Total revenues	1,990,630	1,982,185	(8,445)
Operating expenses:			
Salaries and wages	989,815	1,011,603	(21,788)
Services	517,220	385,601	131,619
Repairs	250,900	199,680	51,220
Supplies and materials	241,905	233,703	8,202
Total expenses	1,999,840	1,830,587	169,253
Revenues over (under) expenses	\$ (9,210)	\$ 151,598	\$ 160,808

The favorable variance of \$160,808 was due to the following:

- Non operating revenues were under budget by \$14,350, primarily due to decreases to interest income.
- Program fees exceeded budget by \$11,744, primarily due to increases in building and park rentals.

General Fund Budgetary Highlights (cont'd)

- Salaries and wages expenses exceeded budget by \$21,788, primarily from decreases to Recreation Center wages.
- Service expenses were under budget by \$131,619 due to decreases in professional services, insurance and benefits, contractual services, utilities and miscellaneous expenses.
- Repairs were under budget by \$51,220, primarily from decreases to contracts/park maintenance, equipment maintenance and contractual services.
- Supplies and materials expenses were under budget by \$8,202, primarily from decreases to general office, building equipment, theme party and maintenance commodity expenses.

Capital Asset and Debt Administration

Capital Assets

The District's capital assets were reviewed to develop a capital asset system and comply with the requirements of GASB Statement 34. Data for the capital asset system was based on historical cost information and a physical inventory. Assets were grouped in appropriate classes, with a normal useful life assigned to allow the calculation of accumulated depreciation and net book values as of April 30, 2009. The investment in capital assets, net of accumulated depreciation for governmental and business-type activities as of April 30, 2009, was \$20,067,460 and \$743,364, respectively (\$20,296,999 and \$797,310, respectively at April 30, 2008). This investment in capital assets includes land, land improvements, buildings and improvements, equipment, licensed vehicles, and construction in progress.

Major capital events during the current fiscal year included payments for the District's development of the Dean Nature Sanctuary (construction in progress), renovations to the shelter building, pool improvements, purchase of a pick up truck, and various machinery and equipment for the parks, fitness center and office equipment. Additional information on the Park District's capital assets can be found at Note 4. on pages 34 and 35 of this report.

Long-term Debt

As of April 30, 2009, the District had long-term liabilities of \$1,040,000, which is for general obligation bonds issued by the general government, and is being repaid from the applicable resources. Additional information on the Park District's long-term debt can be found at Note 6. on page 36 of this report.

Economic Factors and Next Year's Budgets and Rates

The District's fiscal year 2009 - 2010 budget was prepared on a tax cap increase of 4.9%, with an overall increase in property taxes of \$59,355. Fees and charges are based on an analysis of the market, and covering direct and a portion of indirect costs.

The District is not aware of any economic factors to adversely affect its financial circumstances in the future.

Requests for Information

This financial report is designed to provide a general overview of the Oak Brook Park District's finances, comply with finance related laws and regulations, and demonstrate the District's commitment to public accountability. Questions concerning any of the information provided in this report, or requests for additional financial information, should be addressed to the Director of Finances and Human Resources, Oak Brook Park District, 1450 Forest Gate Road, Oak Brook, Illinois 60523.

Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Assets

April 30, 2009

	•
Total Fund Balances - Governmental Funds	\$ 2,262,840
Amounts reported for governmental activities in the Statement of Net Assets are different because:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental funds balance sheet.	20,067,460
Interest expense is not subject to accrual in governmental funds.	(13,612)
The Internal Service Fund is used to account for costs of liability insurance for all funds. The net assets of the Internal Service Fund are included in governmental activities in the Statement of Net Assets.	119,190
Property tax revenues are recognized for governmental activities when levied, regardless of when collected, and thus not deferred on the Statement of Net Assets.	2,589,119
Long-term liabilities, including bonds and compensated absences payable, are not due and payable in the current period and, therefore, are not reported in the governmental funds balance sheet.	(1,123,667)
Net Assets of Governmental Activities	\$ 23,901,330

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities

Year Ended April 30, 2009

Net Change in Fund Balance - Total Governmental Funds	\$ (22,920)
Amounts reported for governmental activities in the Statement of Net Assets are different because:	
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives, as depreciation expense. This is the amount by which depreciation of \$530,273 exceeds capital outlay of \$300,734 in the current period.	(229,539)
The issuance of long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. This amount is the amount of bond principal paid during the current period.	235,000
Interest expense on long-term debt is accrued in the government-wide Statement of Activities, but does not require the use of current financial resources; therefore, it is recorded as an expenditure when paid by governmental funds.	2,685
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. This is the change in deferred property tax revenue during the current period.	87,195
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as an expenditure in governmental funds.	(6,893)
Net income of the Internal Service Fund is included in the Statement of Activities	24,018
Change in Net Assets of Governmental Activities	<u>\$ 89,546</u>

Notes to the Financial Statements April 30, 2009

1. Summary of Significant Accounting Policies

The financial statements of the Oak Brook Park District, Illinois (Park District), have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

A. Reporting Entity

Oak Brook Park District, DuPage and Cook Counties, Illinois is duly organized and existing under the provisions of the laws of the State of Illinois, and is operating under the provisions of the Park District Code of the State of Illinois, approved July 8, 1947, and all laws amendatory thereto. The Park District operates under the commissioner-director form of government and provides a variety of recreational facilities, programs and services. Commissioners are elected to serve six-year terms by the Park District's constituents.

The Park District includes all funds of its governmental operations and its component units based on financial accountability. Financial accountability includes appointment of the organization's governing body, imposition of will, and fiscal dependency. The accompanying financial statements include only those funds of the Park District, as there are no other organizations for which it has financial accountability.

B. Government-wide and Fund Financial Statements

Government-wide Financial Statements

The government-wide financial statements (i.e., Statement of Net Assets and Statement of Activities) report information on all activities of the primary government. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported as general revenues.

Fund Financial Statements

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The Park District reports the following major governmental funds:

General Fund – The General Fund is the general operating fund of the Park District. It is used to account for park administration and maintenance, the Park District's Family Recreation, Fitness, Aquatic and Administrative Centers and all other financial resources except those required to be accounted for in another fund.

Notes to the Financial Statements April 30, 2009

- 1. Summary of Significant Accounting Policies (Cont.)
 - B. Government-wide and Fund Financial Statements (Cont.)

Fund Financial Statements (Cont.)

Recreation Fund – The Recreation Fund is used to account for the proceeds derived from, and the related costs incurred, in connection with the recreation programs offered by the Park District.

Debt Service Fund – The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs that are not financed by proprietary funds.

Capital Projects Fund – The Capital Projects Fund is used to account for the financial resources to be used for the acquisition of capital assets, or construction of major capital projects not being financed by the proprietary funds.

The Park District reports the following major proprietary fund:

Recreational Facilities Fund – The Recreation Facilities Fund accounts for the operation of the Racquet Club facilities. The Park District records the activity in the enterprise fund, and the operations are presented as a business-type activity in the government-wide financial statements, as they rely on customer fees and charges to a significant extent.

Additionally, the Park District reports the following fund type:

Internal Service Fund – The Internal Service Fund is used to account for the Park District's risk management activities, including participation in the Park District Risk Management Agency (PDRMA). Financing is provided from the annual property tax levy.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. An exception to this general rule is the recreational program chargebacks between the Recreation and General Funds. Elimination of these charges would distort the direct costs reported for the various functions concerned.

C. Measurement Focus and Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of account, revenues are recognized when susceptible to accrual (when they are "measurable and available"). "Measurable" means the amount of the transaction can be determined, and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The government considers all revenues available if they are collected within thirty days after year end.

Notes to the Financial Statements April 30, 2009

1. Summary of Significant Accounting Policies (Cont.)

C. Measurement Focus and Basis of Accounting and Financial Statement Presentation (Cont.)

Significant revenue sources which are susceptible to accrual include property taxes, charges for services, and interest. All other revenue sources are considered to be measurable and available when cash is received.

Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on general long-term debt, which is recognized when due, and compensated absences which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

The Park District applies all applicable FASB pronouncements issued on or before November 30, 1989, or which do not conflict with GASB pronouncements in accounting and reporting for its proprietary operations.

Amounts reported as program revenues include (1) charges to customers or applicants for goods, services or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services, and producing and delivering goods, in connection with the proprietary fund's principal ongoing operations. The principal operating revenues of the Racquet Club are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

<u>Use of Estimates</u> – The preparation of proprietary fund financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and reported amounts of revenue and expenses during the accounting period. Actual results could differ from those estimates.

D. Assets, Liabilities and Net Assets or Equity

Deposits and Investments

The Park District maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the combined balance sheet as "equity in pooled cash and cash equivalents."

The Park District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

Statutes authorize the Park District to invest in the following:

- Bonds, notes, certificates of indebtedness, Treasury bills or other securities which are guaranteed by the full faith and credit of the United States as to principal and interest.
- Bonds, notes, debentures or similar obligations of the United States of America or its agencies.

Notes to the Financial Statements April 30, 2009

- 1. Summary of Significant Accounting Policies (Cont.)
 - D. Assets, Liabilities and Net Assets or Equity (Cont.)

Deposits and Investments (Cont.)

- Savings accounts, certificates of deposit, time accounts, or any other investments constituting direct obligations of a bank as defined by the Illinois Banking Act. Securities legally issuable by savings and loan associations incorporated under the laws of any state of the United States. Share accounts and share certificates of a credit union chartered under the laws of the State of Illinois or United States of America, provided the principal office of the credit union is located within the State of Illinois. Short-term discount obligations of the Federal National Mortgage Association (FNMA). Investments may be made only in financial institutions that are insured by either the Federal Deposit Insurance Corporation or other application law for credit unions.
- Short-term obligations (maturing within 180 days of dates of purchase) of corporations with assets exceeding five hundred million dollars (\$500,000,000). Such obligations must be rated, at the time of purchase at one of the three highest classifications established by at least two standard rating services. This type of obligation is limited to one-third of the Park District's funds available for investment, and cannot exceed 10% of the corporation's outstanding obligation.
- Money market mutual funds registered under the Investment Company Act of 1940 which invest only in bonds, notes, certificates of indebtedness, Treasury bills, or other securities which are guaranteed by the full faith and credit of the United States as to principal and interest, and agrees to repurchase such obligations. In addition, the Park District may also invest in a fund managed, operated and administered by a bank.
- Repurchase agreements of the government securities subject to the Government Securities Act of 1986.
- Illinois Funds is an investment pool managed by the State of Illinois, Office of the Treasurer, which allows governments within the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in Illinois Funds are valued at Illinois Funds' share price, which is the price for which the investment could be sold.

Investment are stated at fair value based on quoted market prices. All other investments, which do not consider market rates, are stated at cost. Investment income has been allocated to each fund based on investments held by the fund.

Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "interfund receivables/payables" (the current portion of interfund loans), or "advances to/from other funds" (the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Advances between funds are offset by a fund balance reserve account to indicate that they are not available for appropriation, and are not expendable available resources. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Notes to the Financial Statements April 30, 2009

1. Summary of Significant Accounting Policies (Cont.)

D. Assets, Liabilities and Net Assets or Equity (Cont.)

Receivables and Payables (Cont.)

The Park District's property taxes are required to be levied by ordinance. A certified copy of the levy ordinance must be filed with the county clerk not later than the last Tuesday in December of each year. Tax bills are prepared by the county and issued on or about May 1, 2009, and are payable in two installments on or about June 1, 2009 and September 1, 2009. Property taxes attach an enforceable lien on property as of January 1.

Property taxes are based on the assessed valuation of the Park District's real property, as equalized by the State of Illinois. The equalized assessed valuation of real property totaled \$1,712,225,187 for the tax levy year 2007.

Property tax receivables are shown net of allowance for doubtful accounts. The property tax receivable allowance is equal to 1.5% of the outstanding property taxes at year end.

Inventories and Prepaid Items

Inventories consist of expendable supplies held for resale, and are carried at cost using the first-in, first-out (FIFO) method. Certain payments to vendors reflect costs applicable to future accounting periods, and are recorded as prepaid items in both government-wide and fund financial statements.

Capital Assets

Capital assets, which include property, equipment and infrastructure assets, are reported in the applicable governmental and business-type activities column in government-wide financial statements. The Park District defines capital assets as assets with an initial cost of more than \$5,000 and an estimated life in excess of one year. Such assets are recorded at cost, or estimated historical cost if purchased or constructed. Donated capital assets are recorded at their estimated tax value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets or business-type activities is included as part of the capitalized value of the assets being constructed.

Property and equipment of the primary government is depreciated using the straight-line method. Prior estimated useful lives were reevaluated in conjunction with the implementation of GASB No. 34 on May 1, 2004, resulting in the following estimated useful lives:

Asset Classification

Land Improvements	20 years
Buildings and Major Construction	30-40 years
Building Improvements	10-20 years
Furniture and Equipment	7-15 years
Vehicles	5 years

Notes to the Financial Statements April 30, 2009

1. Summary of Significant Accounting Policies (Cont.)

D. Assets, Liabilities and Net Assets or Equity (Cont.)

Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Compensated Absences

It is the Park District's policy to permit employees to accumulate earned but unusual vacation and sick pay benefits. No liability is reported for unpaid accumulated sick leave, as no benefit is paid to employees upon termination. Vacation pay is accrued when earned in the government-wide and proprietary financial statements. A liability is reported for these amounts in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. Payments for compensated absences are made by the governmental funds for which the eligible employee salary is recorded.

Deferred Tax Revenue

Property tax revenues are recorded on the "deferred method." Because of the extraordinarily long period of time between the levy date and the receipt of tax distributions from the county collector, property taxes are not "available" to finance the current year's expenditures. For those funds on the modified accrual basis of accounting, the current year's tax levy is recorded as property taxes receivable and deferred tax revenue.

Fund Equity

In the fund financial statements, governmental funds report reservations of fund balances for amounts that are not appropriable, or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Notes to the Financial Statements April 30, 2009

2. Stewardship, Compliance and Accountability

A. Budgetary Information

The Park District follows these procedures in establishing the budgetary data reflected in the financial statements:

- The Annual Budget and Appropriation Ordinance is prepared in tentative form by the Director of Parks and Recreation, and is made available by the Park Secretary for public inspection thirty days prior to final Board actions. A public hearing is held on the tentative Annual Budget and Appropriation Ordinance to obtain taxpayer comments.
- Prior to August 1, the Appropriation Ordinance is legally enacted through the passage of the Annual Budget and Appropriation Ordinance. All actual expenditures contained herein have been compared to the annual appropriation.
- The Board of Park Commission may
 - Amend the Annual Budget and Appropriation Ordinance in the same manner as its original enactment.
 - o Transfer between items of any fund not exceeding in the aggregate ten percent (10%) of the total amount appropriated in such fund.
 - After six months of the fiscal year, by two-thirds vote, transfer any appropriation item it anticipates to be unexpended to any other appropriation item.
- All appropriations lapse at year end. Management cannot amend the Annual Budget and Appropriation Ordinance. However, expenditures may exceed appropriations at the sub-object level. Expenditures that exceed individual appropriations at the object level must be approved by the Board of Commissioners as outlined above.
- The Park District does not use the encumbrances method of accounting. Budgetary funds are controlled by an integrated budgetary accounting system, in accordance with various legal requirements which govern the Park District.
- Annual budgets are adopted for all governmental and proprietary funds on a basis of anticipated revenues to be received in cash and expenditures to be incurred. This basis does not differ materially from accounting principles generally accepted in the United Stated of America.
- The original budget and appropriation amounts were amended during the year, in compliance with applicable State statute. The final budget amounts are as amended by the Board of Commissioners. The amendment transferred appropriation line items anticipated to be unexpended to other appropriation items within the same fund.

Notes to the Financial Statements April 30, 2009

2. Stewardship, Compliance and Accountability (Cont.)

B. Excess of Expenditures Over Appropriations

Expenditures exceeded appropriations at the object level in the following funds:

]	Excess
General Fund		
General Administrative	an an	27 005
Salaries and Wages	\$	27,905
Parks		06.116
Salaries and Wages		26,116
Supplies and Materials		14,142
Shelter		
Services		1,078
Recreation Fund		
Administration		
Salaries and Wages		59,029
Fitness Exercise Programs		
Supplies and Materials		443

3. Deposits

At year end, the carrying amount of the Park District's deposits (including certificates of deposit of \$1,979,738) was \$2,991,403, and the bank balance was \$3,129,940. The entire bank balance was covered by Federal Depository Insurance, or by collateral held by the Park District's agent in the Park District's name. In addition, the Park District has cash on hand of \$2,511.

Interest Rate Risk. This is the risk that changes in the market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. In accordance with its investment policy, the Park District manages its interest rate risk by structuring its certificates of deposit so that they mature to meet cash requirements for ongoing operations, thereby avoiding the need to cash certificates of deposit prior to maturity, and by investing operating funds primarily in shorter term certificates.

<u>Credit Risk</u>. Generally, credit risk is the risk that an issuer of a debt type instrument will not fulfill its obligation to the holder of the investment. This is measured by assignment of a rating by a nationally recognized rating organization. The Park District did not invest in debt instruments during the year ended April 30, 2009.

<u>Custodial Credit Risk.</u> For deposits, this is the risk that, in the event of a bank failure, a government will not be able to recover its deposit. In accordance with its investment policy, all Park District deposits with financial institutions are fully insured or collateralized. It is the Park District's policy that certificates of deposit are fully insured, or shall be collateralized by the actual security held in safekeeping by the agent.

Notes to the Financial Statements April 30, 2009

4. Capital Assets

Governmental Activities

Capital asset activity for the year ended April 30, 2009 was as follows:

Governmental Activities

5. Interfund Receivables, Payables and Transfers

Racquet Club

At April 30, 2009, the General Fund was owed \$58,247 by the Illinois Municipal Retirement (nonmajor) Fund, borrowed to eliminate cash deficits. The Recreation Fund was owed \$980 by the General Fund due to an overcharge. The General Fund made a transfer of \$185,000 to the Capital Projects Fund to subsidize costs incurred for capital projects at recreational facilities and parks.

53,946

Notes to the Financial Statements April 30, 2009

6. Long-Term Debt

The Park District issues general obligation bonds to finance the acquisition or construction of major capital facilities. General obligation bonds are direct obligations, and pledge the full faith and credit of the Park District. General obligation bonds have been issued for general government activities and are being repaid from the applicable resources.

General obligation bonds currently outstanding are as follows:

General Obligation Park Bond (Limited Tax) Series of 2002, authorized issue of \$2,365,000, due in annual installments of \$210,000 to \$275,000, interest payable June 30 and December 30 at rates ranging from 1.85% to 4.10%.

\$1,040,000

Debt Service Requirements to Maturity

Annual requirements to amortize all debt outstanding as of April 30, 2009 are as follows:

Limited Tax Series 2002

Fiscal		Governmenta		
Year		Principal	Interest	Total
2010	\$	245,000	40,503	285,503
2011		255,000	31,560	286,560
2012		265,000	21,742	286,742
2013		275,000	11,275	286,275
	\$	1,040,000	105,080	1,145,080

The following is a summary of long-term liabilities transactions of the Park District for the year ended April 30, 2009:

	Balance at Iay 1, 2008	Additions	Reductions	Balance at April 30, 2009	Due Within One Year
Governmental Activities:					
General Obligation Bonds Compensated Absences	\$ 1,275,000 76,774	6,893	235,000	1,040,000 83,667	245,000 83,667
	 1,351,774	6,893	235,000	1,123,667	328,667
Business-Type Activities:					
Compensated Absences	\$ 19,940		1,858	18,082	18,082

Compensated absences are paid by the applicable fund where each employee is regularly paid, primarily the General and Recreation Funds. The Park District does not accrue for unused sick time, as employees are not eligible to receive compensation for unused sick time upon termination of employment. Vacation is earned and used on a calendar year basis. Earned and unused vacation time can be carried forward for a maximum of 60 days following calendar year end. Therefore, all accrued vacation is reported as due within one year.

Notes to the Financial Statements April 30, 2009

7. Risk Management

The Park District is exposed to various risks related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and net income losses.

Since June 1, 1992 the Park District has been a member of the Park District Risk Management Agency (PDRMA) Property/Casualty Program, a joint risk management pool of park and forest preserve districts, and special recreation associations through which property, general liability, automobile liability, crime, boiler and machinery, public officials, employment practices liability, workers compensation and pollution liability coverage is provided in excess of specified limits for the members, acting as a single insurable unit. The following is a summary of the coverage in effect for the period January 1, 2008 through January 1, 2009.

	PDRMA Member Self-Insurance					
Coverage	Deductible	Retention	Limits			
Property

Liability - First Party	1,000	24,000	\$10,000,000 general aggregate

Losses exceeding the per occurrence self-insured and reinsurance limit would be the responsibility of the Park District.

Notes to the Financial Statements April 30, 2009

7. Risk Management (Cont.)

As a member of PDRMA's Property/Casualty Program, the Park District is represented on the Property/Casualty Program Council and the Membership Assembly and is entitled to one vote on each. The relationship between the Park District and PDRMA is governed by a contract and the by-laws that have been adopted by resolution of the Park District's governing body. The Park District is contractually obligated to make all annual and supplementary contributions to PDRMA, to report claims on a timely basis, cooperate with PDRMA, its claims administrator and attorneys in claims investigation and settlement, and to follow risk management procedures as outlined by PDRMA. Members have a contractual obligation to fund any deficit of PDRMA attributable to a membership year during which they were a member.

PDRMA is responsible for administering the self-insurance program and purchasing excess insurance according to the direction of the Program Council. PDRMA also provides its members with risk management services, including the defense of and settlement of claims, and establishes reasonable and necessary loss reduction and prevention procedures to be followed by the members.

The following represents a summary of PDRMA's balance sheet at December 31, 2008 and the statement of revenues and expenses for the period ending December 31, 2008. The Park District's portion of the overall equity of the pool is 0.152% or \$43,805.

Assets	\$ 45,551,598
Liabilities	16,651,464
Member Balances	28,900,134
Revenues	9,672,685
Expenditures	15,938,987

Since 91% of PDRMA's liabilities are reserves for losses and loss adjustment expenses which are based on an actuarial estimate of the ultimate losses incurred, the member balances are adjusted annually as more recent loss information becomes available. Complete financial statements for PDRMA can be obtained from PDRMA's administrative offices at 2033 Burlington Avenue, Lisle, Illinois.

8. Joint Venture - Gateway Special Recreation Association

The Park District, along with eight other area municipalities and park districts, has entered into a joint agreement to provide cooperative recreational programs and other activities for handicapped and impaired individuals. Each member agency shares ratably in the Association, and generally provides funding based on its equalized assessed valuation. The Park District contributed \$29,304 to the Association during the current fiscal year. The Park District does not have a direct financial interest in the Association and, therefore, it is not reported within the financial statements. Upon dissolution of the Association, the assets, if any, shall be divided among the members in accordance with equitable formula, as determined by a unanimous vote of the Board of Directors of the Association.

Complete separate financial statements for the Association can be obtained from the Association's administrative offices located in the City of Countryside's Park and Recreation Department, or at the Park District's administrative office.

Notes to the Financial Statements April 30, 2009

9. Pension Plan

The Park District's defined benefit pension plan for regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The Park District's plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained on-line at www.imrf.org.

As set by statute, employees participating in IMRF are required to contribute 4.50% of their annual covered salary. Statutes requires the Park District to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The Park District's contribution rate for calendar year 2008 was 8.45% of annual covered payroll. The Park District also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRD level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

For 2008, the Park District's annual pension cost of \$144,288 was equal to the Park District's required and actual contributions.

Actuarial Valuation Date	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
12/31/2008 12/31/2007	\$ 144,288 141,698	100%	0
12/31/2006	127,491	100%	Ö

The required contribution for 2008 was determined as part of the December 31, 2006, actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions at December 31, 2006, included a) 7.50% investment rate of return (net of administrative and direct investment expenses); b) projected salary increase of 4.00% a year, attributable to inflation; c) additional projected salary increases ranging from 0.4% to 11.6% per year, depending on age and service, attributable to seniority/merit; and d) post-retirement benefit increases of 3% annually. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period with a 20% corridor between the actuarial and market value of assets. The Park District's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at the December 31, 2008 valuation was 24 years.

As of December 31, 2008, the most recent actuarial valuation date, the Park District's plan was 97.21% funded. The actuarial accrued liability for benefits was \$2,851,185 and the actuarial value of assets was \$2,771,754, resulting in an underfunded actuarial accrued liability (UAAL) of \$79,431. The covered payroll (annual payroll of active employees covered by the plan) was \$1,707,551 and the ratio of the UAAL to the covered payroll was 5%.

The Schedule of Funding Progress, presented as Required Supplementary Information following the Notes to the Financial Statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

REQUIRED SUPPLEMENTARY INFORMATION (UNAUDITED)

This part of Oak Brook Park District's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Park District's overall economic condition.

<u>Contents</u>	Page(s)
Financial Trends	
These schedules contain trend information to help the reader understand how the Park District's financial performance and well-being have changed over time.	68-75
Revenue Capacity	
These schedules contain information to help the reader assess the factors affecting the Park District's ability to generate its property taxes.	76-81
Debt Capacity	
These schedules present information to help the reader assess the affordability of the Park District's current levels of outstanding debt and the Park District's ability to issue additional debt in the future.	82-85
Demographic and Economic Information	
These schedules offer demographic and economic indicators to help the reader understand the environment within which the Park District's financial activities take place and to help make comparisons over time with other governments.	86-88
Operating Information	
These schedules contain information about the Park District's operations and resources to help the reader understand how the Park District's financial information relates to the services the Park District provides and the activities it performs.	89-90

Sources:

Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Reports for the relevant year. The Park District implemented GASB Statement 34 as of April 30, 2005; schedules presenting schedules presenting government-wide information include information beginning in that year.

Debt Capacity

Schedule of Direct and Overlapping Debt Outstanding

April 30, 2009

	Outstanding	Applicable to the District		
Overlapping Agencies	Debt	Percent	Amount	
DuPage County	\$ 181,915,000	18.64%	33,908,956	
DuPage Forest Preserve	243,228,400	24.92%	60,612,517	
DuPage Water Commission	35,560,000	3.64%	1,294,384	
Unit District #205	88,423,936	9.06%	8,011,209	
Elementary School Districts	84,697,111	8.68%	7,351,709	
High School Districts	170,058,247	17.42%	29,624,147	
Junior College District #502	170,920,000	17.51%	29,928,092	

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the Park District. The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the District's taxable assessed value that is within the boundaries of the government and dividing it by the government's total assessed value.
