

Oak Brook Bath & Tennis Club

Fluid Running Summer 2019

The Oak Brook Park District is excited to continue partnering with Fluid Running to offer programming at the Oak Brook Bath & Tennis Club for Summer 2019.

Here are a few important details for classes as they pertain to the weather:

- The Oak Brook Park District will decide on all weather-related concerns no later than 7:15am on the day of class. Efforts will be made to communicate changes to all participants registered for class that day via email no later than 7:30am. In addition, the lifeguard shed can be called for immediate updates at: 630-368-6432
- Should weather create unsafe conditions to hold class outdoors, the class may be moved to the Park District indoor pool and run at the scheduled time.
- Class will run in colder temperatures than required for general public pool use.
- Class will run in light rain as long as lightning is not present in the area.
Note: The OBBT uses the Thorguard alert to determine lightning conditions.
- Any class that begins and is impacted by weather will have one of two possible outcomes:
 - a) If class is 30 minutes or less from beginning, a make-up card can be picked up at the lifeguard shed with instructions for use on the card.
 - b) If the class is greater than 30 minutes from the beginning of class, it is considered a full class and is not an opportunity for make-ups.

If you have any questions, contact either organization below:
