MINUTES
REGULAR MEETING OF THE OAK BROOK PARK DISTRICT
BOARD OF COMMISSIONERS
June 16, 2025 – 6:30 p.m.
Canterberry Room

1. CALL TO ORDER THE REGULAR MEETING OF THE OAK BROOK PARK DISTRICT BOARD OF COMMISSIONERS AND CONDUCT THE ROLL CALL

President Knitter called to order the Regular Meeting of the Oak Brook Park District at the hour of 6:31 p.m. Commissioners Chan, Gondek, Ivkovic Kelley, Vescovi, and President Knitter answered “present” from the Oak Brook Park District Family Recreation Center, Canterbury Conference Room. Also present in Canterbury Conference Room was Laure Kosey, Executive Director; Marco Salinas, Chief Financial Officer; Bob Johnson, Deputy Director; Robert Pechous, Director of Recreation and Communications; and Steve Adams, District Attorney.

2. OPEN FORUM

President Knitter asked if there were any public comments.

Amy Marr reported that her child informed her that Commissioner Chan visited a Park District camp which her child attends. Commissioner Chan asked the children for their names and where they lived. Marr asked if Commissioner Chan communicated her visit in advance to the Park District staff, and she expressed concern, describing the behavior as inappropriate.

Ron Ariana, a Saddlebrook resident, reported that the Fordon Horse Barn has been named one of “2025 Most Endangered Historic Places in Illinois” by Landmarks Illinois. Ariana requested that the results of the informal survey be made public, sought clarification on the “remove” option, and urged that all possibilities for repurposing or relocating the structure be thoroughly analyzed.

Nella Sansguin, a resident of Oak Brook, requested that the playground camp lunch be held indoors daily due to high temperatures and to help the children focus on eating. Sansguin also expressed her primary concern about Commissioner Chan walking around the Playground Camp and interacting with counselors and children at the camp which her child attends. Sansguin finds the commissioner’s involvement to be disruptive and inappropriate. Sansguin suggested that Commissioner Chan go through proper channels.

Alan Koren, a Saddlebrook resident, shared that a former board member of the Historical Society had emailed him in support of preserving the barn specifically at Graue Mill.

6. PRESENTATION/PROCLAMATIONS

- a. Proclamation “July is Park and Recreation Month”

Dr. Kosey stated that the Board will be signing the proclamation at the end of the meeting.

b. Jim Belden, Solar Power Purchase Agreement

Jim Belden updated the Board on the Reconciliation Bill. The investment tax credit will expire 60 days after the bill is signed into law. Given the short timeframe, Belden is working with clients to establish safe harbor provisions and recommends pursuing a Power Purchase Agreement (PPA). Under a PPA, the solar investor covers equipment, installation, and maintenance costs. The agreement typically spans 15–20 years.

Attorney Adams asked about variables in the contract if there are any loss of incentives. Belden replied that variables for loss of incentives would be important to write in the contract.

President Knitter asked if low solar production could affect the contracted rate. Belden responded that the rate is fixed, non-escalating, and not tied to energy output.

Commissioner Gondek inquired about possible future technical changes and governmental bills. Belden responded that PPA provides less risk with technical changes since the Park District is only purchasing solar energy. Whereas if the Park District owned the equipment, the equipment would need to be replaced by the owner.

Commissioner Vescovi asked if there is a difference in warranty process whether purchased or leased. Belden responded that the warranty is the same, 20 years stipulated by Illinois law.

Commissioner Chan questioned the efficiency and degradation of the solar panels, especially with Illinois climate.

Belden stated that the inefficiencies and degradation that Commissioner Chan is speaking of are unfounded and then provided evidence.

President Knitter asked Belden if it matters how much solar energy is being produced since the Park District will only pay the contracted rate, and if there were not enough solar production, what would happen. Belden agreed that Park District pays the contracted rate and is not at risk of degradation. The panels have warranty on efficiency and will be monitored. If degradation occurs, those would be remedied.

9. NEW BUSINESS

a. Wizard Football Club Agreement

Dr. Kosey provided an overview of the Wizard Football Club Agreement, noting that nearly half of the participants are residents. Dr. Kosey highlighted the Park District's strong five-year partnership with the club.

Commissioner Chan inquired about the capital contribution.

Dr. Kosey explained the capital contribution previously facilitated the LED lights at the North Fields. For the present agreement, the contributions will assist with a capital project.

b. Ordinance 25-0721: An Ordinance Implementing the Provisions of the State Officials and Employees Ethics Act (5 ILCS 430/1 1 Et Seq.)

Commissioner Chan reviewed her comments for Ordinance 25-0721, specifically questioning a sitting commissioner endorsing another candidate. Attorney Adams clarified that commissioners are not prohibited from endorsing other candidates. However, commissioners may not use Park District resources, staff, or materials for campaign purposes during official duties, as outlined by the Illinois Attorney General.

Commissioner Chan warned that the ordinance could be used as a political weapon targeting commissioners and stated that its adoption is unnecessary. Attorney Adams clarified that the ordinance does not establish an Ethics Committee. Instead, it identifies an optional Ethics Advisor role, but the adoption of the ordinance is mandated by state law.

Dr. Kosey suggested Commissioner Chan submit her questions in writing and receive responses before the next board meeting.

Attorney Adams stated that a commissioner may speak to other commissioners at conferences. However, speaking to two or more commissioners from this board would violate the Open Meetings Act. Attorney Adams clarified to Commissioner Chan that commissioners cannot speak about political prohibited activities, then he suggested Commissioner Chan make her revision to the Ethics Ordinance.

Commissioner Gondek expressed support for the Ethics Ordinance, stating that if the Illinois General Assembly believes it is legal and necessary, then the Board should adopt it.

c. Section 1.1 – Administrative Policies and Procedures Revisions

Commissioner Chan voiced her disagreement with the added clause where a commissioner must be on the Board for one year before being elected as an officer. Because commissioners are elected by the public, Commissioner Chan argued that officer roles should rotate annually rather than being held by the same individuals for extended periods; no commissioner should serve in the same officer role for consecutive terms.

President Knitter suggested that Commissioner Chan make a motion to prohibit consecutive officer terms.

Commissioner Ivkovic Kelley asked why remote call-in is being limited. President Knitter explained that remote call-in is allowed three times. This policy was introduced in response to past issues with a previous commissioner's use of remote participation.

Commissioner Chan referenced the situation involving the former commissioner and expressed her view that limiting remote participation is not constructive. Commissioner Chan recommended removing the cap on remote meeting attendance.

Attorney Adams concluded the discussion by noting that the remote participation policy is a Board decision.

d. RFP for Solar PPA Provider

Johnson asked the Board for direction at the next Board meeting on whether to pursue the Request for Proposal (RFP) for Solar Provider PPA.

Commissioner Chan stated that she does not want to pursue the RFP for the Solar PPA.

Commissioners Gondek and Ivkovic Kelley stated that they would move forward with the RFP for Solar PPA.

Commissioner Vescovi would like more information concerning other institutions who participate and number of years participating in the Solar PPA; however, he believes the Solar PPA is a great deal.

Johnson listed multiple Park Districts who are underway with the Solar PPA. Johnson stated the Board will decide whether to pursue the RFP.

e. Ordinance 25-0722: An Ordinance Providing for Declaration of Vacancy on the Board of Park Commissioners

Commissioner Vescovi addressed his absences from past Board meetings. Commissioner Vescovi acknowledged that he should have participated remotely but explained the circumstances that prevented him from doing so; he stated that he does not support the ordinance.

Attorney Adams stated that many of his park district clients have an attendance ordinance, but state legislature gives the Board the authority to decide.

Attorney Adams clarified that the ordinance would apply if a commissioner missed four meetings without attending in person or remotely.

Dr. Kosey added that the intent of the ordinance is to address chronic absenteeism, specifically in cases where four meetings are missed. Dr. Kosey noted that remote participation is available for commissioners who are ill.

Commissioner Gondek expressed support for having a provision in place to address attendance.

President Knitter emphasized that past absences, including those of Commissioner Vescovi, are not the focus; the goal is to move forward with a new provision that promotes accountability.

10. BOARD OF COMMISSIONERS TO SHARE COMMUNICATIONS

Commissioner Chan stated that a resident told her that children were eating on the ground at the playground camp and that the issue was raised with both Commissioners and the Executive Director/Staff, but it was not resolved. Commissioner Chan went to assess the situation herself and walked to the playground that is open to the public, and she found that to be the case. A neighbor's daughter recognized Commissioner Chan and started to talk with her. Multiple camp counselors were there the entire time, and those camp counselors and other kids joined in the conversation. Chan's recommendation is to have the kids eat in the empty room that has table and chairs available, which also has a joining bathroom. Commissioner Chan also noted that an unsupervised boy came out of the restroom.

President Knitter stated that a commissioner's job is policy and hiring of the Executive Director, not operations. Any concerns and recommendations should be directed to Dr. Kosey.

Dr. Kosey expressed concern with Commissioner Chan's comments which questioned the professionalism of the staff. Dr. Kosey clarified the unsupervised child exiting the restroom was a Junior Counselor, who is permitted to use the restroom independently. Additionally, staff had already addressed a parent's concern regarding lunch. During inclement weather, children come inside to eat. Dr. Kosey reiterated the concept of the Playground Camp and requested Commissioner Chan share her concerns with her instead of creating alarm among parents.

Commissioner Ivkovic Kelley stated that several parents approached her and expressed concern that Commissioner Chan asked their children for their names and where they live. Commissioner Ivkovic Kelley recommended directing inquiries to staff instead of children.

Commissioner Gondek emphasized that the concerns raised by the mothers who spoke tonight should be addressed, and commissioners should come to staff and avoid direct interaction with the children.

President Knitter acknowledged that Commissioner Chan's visit was likely well-intentioned but reiterated that commissioners are not Park District employees and should avoid engaging with minors in Park District programs.

11. THE NEXT REGULAR MEETING OF THE OAK BROOK PARK DISTRICT BOARD OF PARK COMMISSIONERS WILL BE HELD ON JULY 21, 2025, 6:30 P.M.

President Knitter announced the next Regular Meeting of the Oak Brook Park District Board of Park Commissioners will be held on July 21, 2025 at 6:30 p.m.

Oak Brook Park District- Consolidated Year-to-Date Revenues (excluding transfers in)

NOTES

2023/2024 The large increase in Y-T-D revenues are being primarily driven by increased programming revenues in our fitness, aquatics, children's, special events departments, as well as in group tennis programming.

NOTES

2023/2024 The large increase in Y-T-D expenditures are being primarily driven by increased capital improvement costs for our Central Park improvements (e.g. bathrooms, pavilion, synthetic turf field).

Memo

To: Board of Commissioners and Executive Director, Laure Kosey
From: Marco Salinas, Chief Financial Officer
Date: July 16, 2025
Re: June 2025 Financials

General Fund

We have now completed the first two months of our current fiscal year (16.67% of the year). Year-to-date (YTD) revenues, expenditures, and transfers-out for this fund equal \$1,478,253, \$381,016, and \$0, respectively. This is resulting in a YTD net surplus of \$1,097,237, which is a \$282,962 increase from the \$814,275 YTD net surplus experienced in the prior fiscal year. The following is additional commentary:

- **Revenues-** Total current YTD revenues are favorable at 35.9% when compared to the annual budget and have increased \$273,628 when compared to the prior year. As expected, YTD we have collected slightly more than 50% of the 2024 property tax levy and have received the first of six expected receipts of the Personal Property Replacement Taxes (PPRT). The large increase in Building-Recreation Center revenues, as compared to the prior year, are being driven by the overhead and rental income that is charged to the Recreation Fund. As mentioned in prior memos, this activity is now recorded on a monthly basis whereas they were recorded on a quarterly basis in prior years, in the months of July, October, January, and April. At our Central Park West facility, we have recognized rental revenue in the current year whereas in the prior year there was no such revenue due to the ongoing construction and improvements at that building.
- **Expenditures-** Total current YTD expenditures are favorable to budgeted expectations at 10.9% when compared to the annual budget and have decreased \$9,334 when compared to the prior year. In the Administration department, YTD wages have decreased when compared to YTD June 2024 because in the prior year a staff member retired and received a payout of their accumulated and unused vacation hours balance. In addition, there has been a decrease in health insurance costs in this department. The increased expenditures in our Central Park department, when compared to the prior year, are primarily due to the approximate \$6,000 in repair costs to the playground floor surfaces at our universal playground, and the purchase of a portable pitching mound for use at one of our baseball fields.

Recreation Fund

YTD revenues, transfers-in, and expenditures equal \$1,698,653, \$0, and \$583,712, respectively. This is resulting in a YTD net surplus of \$1,114,941, which is a \$93,855 decrease from the \$1,208,796 YTD net surplus experienced in the prior fiscal year. The following is additional commentary:

- **Revenues-** Total current YTD revenues are favorable at 32.8% when compared to the annual budget and have increased \$43,004 when compared to the prior year. All departments are currently favorable or in-line with budgeted expectations due to the start of our busy Spring/Summer season and the corresponding increases in programming registrations and revenues. Our Fitness and Aquatic Center departments are benefitting by a \$36K increase in both in-district and out-of-district membership revenues. In our Aquatic Recreation Programs department, children's private swim lesson revenues have increased \$12k. In our Children's Athletics department, youth basketball revenues have decreased approximately \$17K from the prior year. This decrease is attributed to lower enrollments due to local competition, as well as a higher

percentage of in-district participants which pay a lower registration fee than out-of-district participants. The net negative revenues in June in our Youth Programs department is due to the withdrawal of several children from our full summer playground camp program.

- **Expenditures-** Total current YTD expenditures are favorable at 10.8% when compared to the annual budget and have increased \$136,859 when compared to the prior year. All departments are currently favorable or in-line with current year budgeted expectations. As described in my commentary for our General Fund, several of our departments reflect increased costs due to the monthly recognition of the overhead and rental expenditures whereas in the prior year such activity was captured in subsequent months. In our Aquatic Center department, YTD full-time personnel wages have decreased due to the recent restructuring and the elimination of the superintendent of Aquatics and Maintenance operations position.

Recreational Facilities Fund (Tennis Center)

YTD revenues and expenses in this fund are currently at \$416,305 and \$235,936, respectively. This is resulting in a YTD net surplus of \$180,369, which is a \$166,859 decrease over the prior year's surplus of \$347,228. The following is additional commentary:

- **Revenues-** Total current YTD revenues are in-line with the annual budget at 16.4%, and have decreased \$147,534 when compared to the prior year. This decrease is primarily due to the timing of the recognition of revenues for various summer camp and instructional programs. A higher percentage of the already collected receipts are being deferred to later months when such revenues will be earned.
 - **Expenses-** Total current YTD expenses are favorable at 8.9% when compared to the annual budget and have increased \$19,325 when compared to the prior year. In the Administration department YTD full-time personnel wages and credit card processing fees have increased over the prior year.

Memo

To: Oak Brook Park District Board of Commissioners
From: Robert Pechous, Director of Recreation and Communications
Date: July 15, 2025
Re: June 2025: Recreation and Communications Report

Recreation:

- Athletics
 - The Summer Get Better League kicked off with 188 participants enrolled. This developmental basketball program focuses on skill-building, teamwork, and game-play experience in a supportive, competitive environment.
 - Several weekly camps took place in June, including Multi-Sport Blast Camp, Flag Football Camp, and Basketball Hoops Camp.
 - Staff met with the DuPage Sports Commission and representatives from USA Ultimate Frisbee to discuss the possibility of hosting future tournaments.
- Youth/Preschool
 - Playground Camp launched its summer session with 60 enthusiastic participants. Each week highlights a new theme, and recent field trips included exciting visits to Wicked Ball and Haunted Trails.
 - PeeWee Camp is off to a great start with 45 children enrolled this season. Campers have enjoyed engaging weekly themes such as Starry Nights, Disney Week, and Animal Kingdom.
 - Staff helped out with dodgeball during Exploremore Day at Brook Forest School on Friday, June 6th.
- Pioneers
 - Summer Mah Jongg is fully underway, with 88 players registered. While summer typically sees a slightly lower turnout, this number remains close to our Winter/Spring session totals.
 - 12 Oak Brook Pioneers and 12 from Villa Park spent Tuesday, June 10th, exploring the Amish community in Shipshewana, Indiana. Highlights included shopping, leather and woodworking demonstrations, lunch in a local Amish home, and a hands-on pretzel-making activity.
 - On Tuesday, June 24th, 33 Pioneers enjoyed a presentation on the history of Route 66 by Leslie Goddard. Many attendees are also signed up for the upcoming day trip exploring Route 66 in Illinois.
 - On Thursday, June 10th, 25 Pioneers attended the Travel Club meeting to learn more about the upcoming trips to Albuquerque and the Holland River Cruise.
- Specialty
 - Barks and Brews took place on Thursday, June 26, with 54 participants—and plenty of four-legged friends—joining us for a fun and lively evening. Attendees enjoyed a selection of local craft beers while their dogs socialized, played, and explored the pet-friendly amenities. The event featured dog-centric vendors, treats, and giveaways, creating a relaxed, festive atmosphere for both pups and their owners.
 - Kate connected with the Clarendon Hills Park District regarding cooperative programming, which has helped boost potential enrollment for our summer dance camps and classes.
 - Staff researched rental fees for events comparable to Central Park West to help guide future pricing strategies.

Marketing & Information Technology:

- Staff are in the process of analyzing the results from the 2024 Community Survey and the 2025 Focus Groups and are preparing a report to present key findings and strategic insights.
- Marketing began organizing outreach contacts for Winter Lights sponsorship efforts.
- New network wiring was installed for phone replacements in the meeting rooms and studios. These phones are now IP-based, which requires new wiring from the old analog type.
- Active Net has added a new enhancement that allows customers to use Apple Pay or Google Pay for autopayments and future payments online. Previously, they could only use these types of methods for one-time fees.

Marketing and PR Updates

New signage for the administrative offices for Gateway SRA is planned for the Hanson Center. The new logo will be incorporated into the outdoor display in front of Mize Hall along with the logo on the entrance door. A community board will be installed inside Mize Hall with information about Gateway SRA along with a drop box for registrations.

Strategic Plan

I am still in the process of gathering stakeholders' input and will be pivoting to an online targeted survey to better grab their attention. As this process continues throughout the summer, we will be including the new roles of two of the current coordinator positions to better align with the new strategic plan. One of the positions will target new participation outreach while the other will focus on sustaining part time team members and volunteer growth. With these new positions and an additional full-time recreation specialist we will be able to establish better long-term goals for Gateway SRA.

Memo

To: Board of Commissioners
From: Bob Johnson, Deputy Director
Date: July 15, 2025
Re: Board Report

Parks

- Parks, Maintenance, Tennis, and the Custodian Departments attended the PDRMA Lifting & Handling Training hosted by Athletico. The training focused on body mechanics and proper techniques for lifting and carrying items used by the staff in these departments.
- Additional solar-powered lights have been installed in the Dean Nature Sanctuary parking lot, along with a hardwired light positioned near the gate arm. The new lights will increase illumination at the entrance and parking lot.
- Athletic turfgrass repairs have been made to the south soccer fields at Central Park. Natural grass fields are susceptible to wear and tear with heavy use, and the staff has done a great job performing the restoration.
- Repairs have been completed on the poured-in-place surfacing at the Sandlot Playground. Once the repairs have been fully cured, staff will apply a sealcoat to enhance durability and protect the surface material from excessive wear.
- Mulch was added to the landscape beds at the front of the Family Recreation Center, Tennis Center, Central Park West, and Oaks Amphitheater. Staff continue to remove weeds and keep the landscape looking great.

Aquatics and Maintenance

- A new fire sprinkler line was added under the mezzanine deck at the maintenance garage per fire code.
- New ethernet wire was installed throughout the administrative offices, the fitness studios, and meeting spaces to support the new network-connected phones in those spaces.
- The Maintenance Staff conducted training with Aquatic Managers and Head Guards on proper monitoring, operation of pumps, and refilling chemicals for safe pump room operations. In addition, the Managers have attended two July in-service training to review staff scheduling, in-services, customer services, and proactive safety measures when for large groups and at capacity days.
- Splash Island is now open one hour earlier on Saturdays and Sundays (9:00am) for those that live within the park district boundaries. Proof of residency is required.

Facilities

- The Custodian Team replaced the current square folding card tables that were at their end-of-life and replaced with new, updated models. These new tables are well suited for Pioneer programming events and mini-training sessions due to their versatility and ease of setup. In addition, twenty new folding chairs were added to the inventory to accommodate fall and winter youth basketball league spectators.
- Fit Central received new fitness equipment storage units to keep items organized and easily accessible to members to maximize their workouts.
- The RFP for a solar Power Purchase Agreement was completed. Please see the agenda history.

- 3.) The Club provides soccer-related athletic and sports opportunities to students in grades K-12, many of whom are residents of the District.
- 4.) The Club has previously had an agreement with the District from 2020-2025, and this agreement would be from 2025-2030.

In exchange for the proposed licensed use of the athletic fields, the Wizard Football Club has agreed to pay \$100,000 each year for five years, and Capital Contribution Fees of a total of \$400,000 for the improvement of fields.

To the fullest extent permitted by the laws of the State of Illinois, Licensee hereby forever waives, relinquishes and discharges District, and its park commissioners, officers, employees and agents from, all claims of every nature whatsoever, which Licensee may have at any time against District, its Park Board, officers, employees and/or agents, including without limitation claims for personal injury or property damage sustained or incurred by Licensee or any person claiming by, through or under Licensee, relating directly or indirectly to any Licensed Uses, the condition of Central Park North Fields or the Licensed Property, or use by District or Licensee of Central Park North Fields or the Licensed Property except claims that involve actions proximately caused by the willful and wanton conduct of District.

16. Indemnification and Hold Harmless. Licensee hereby indemnifies and shall defend and hold harmless the District, its park commissioners, officers, employees, volunteers and agents (the "Park Indemnitees") from and against any and all suits, liabilities, claims, losses, costs, and damages, including but not limited to consequential damages, penalties, fines and expenses, of every kind or nature whatsoever, including without limitation court costs and attorneys', paralegals' and consultants' fees (the "Legal Expenses"), suffered, incurred or sustained by any of the Park Indemnitees, including without limitation, liabilities for the death of, or injury to, any person or the loss, destruction or theft of, or damage to, any property, or liabilities imposed under any Environmental Laws, to the extent relating directly or indirectly to, or arising directly or indirectly from, the exercise by Licensee, its employees, agents and invitees, or any other person acting on its or their behalf or with its or their authority or permission, of the obligations, rights or privileges imposed upon, or granted to, Licensee under this Agreement or their use of the Licensed Property. Such obligation shall not be construed to negate, abridge, or otherwise reduce any other right or obligation of indemnity which would otherwise exist as to any party or person described in this Paragraph 17. Licensee shall similarly defend, indemnify and hold harmless the Park Indemnitees against and from any and all suits, claims, losses, costs, damages (including but not limited to consequential damages), penalties, fines and expenses, including without limitation Legal Expenses, suffered, sustained or incurred by any of the Park Indemnitees to the extent resulting from Licensee's breach of any provision of this Agreement or otherwise incurred by District in enforcing the terms of this Agreement.

17. Insurance to be Maintained by Licensee. In addition to, and without limitation of, Licensee's obligations under Paragraphs 16 and 17 above, and at no cost to District, Licensee

shall obtain and keep in full force and effect for so long as any claim relating to any Licensed Uses legally may be asserted, comprehensive general liability and property damage, and business auto liability insurance written to include the coverages for not less than the minimum limits (or greater if required by law) set forth in **Exhibit D** attached to and incorporated by reference in this Agreement. Prior to commencement of any of the Licensed Uses, Licensee shall obtain and deliver to District a certificate of insurance naming District as an additional insured.

18. No Property Interest. This Agreement and the License granted hereunder do not convey to, or create in favor of, Licensee, any legal or equitable title or property interest in whole or in part to Central Park North Fields or any portion thereof, including the Licensed Property; it being acknowledged that this Agreement is a license and not a lease and merely grants temporary and limited permission to Licensee to use the Licensed Property on and subject to the terms and conditions hereof. Licensee expressly acknowledges and agrees that any statute or ordinance relating to landlord/tenant matters or forcible entry and detainer is not applicable to this Agreement and Licensee expressly waives any and all rights to which Licensee might otherwise be entitled under said laws.

19. Assignment Prohibited. Licensee shall not assign, transfer, or otherwise convey to any person or entity whatsoever any of its rights or duties under this Agreement, in whole or in part, or otherwise permit the use of the Licensed Property or any portion thereof, by any person contrary to the provisions of this Agreement.

20. Termination. District reserves the right to terminate the License and any and all rights and privileges hereby granted to Licensee under this Agreement immediately upon notice to Licensee in the event:

- (a) Licensee violates or fails to perform its obligations under any of the terms, conditions or provisions of this Agreement and fails to cure any such breach of this Agreement, which by its nature is susceptible to cure, within thirty (30) days after Licensee's receipt of written notice of such breach. Notwithstanding the foregoing, and depending upon the nature of the breach, the District reserves the right, in its sole discretion, to suspend the License until such time as Licensee has cured said breach or has provided the District with adequate security, as determined by the Park District in its sole discretion, to cover any potential liability that may arise as a result of said breach. If Licensee violates or fails to perform its obligations under any of the terms, conditions or provisions of this Agreement and fails to cure any such breach of this Agreement as such cure process described above may apply, District may pursue any and all legal and equitable remedies.
- (b) District receives notice of an alleged violation of any federal, state, or local law, ordinance, rule or regulation relating to Licensee's conduct of any Licensed Uses on, or use of, all or any part of the Licensed Property. Notwithstanding the foregoing, in the event the District receives notice of an alleged violation, and depending upon the nature of said violation, the District may elect, in its sole discretion, to suspend the License until such time as the alleged violation has been fully adjudicated by the proper official or other authority. The District may also elect, in its sole discretion, to allow Licensee to continue its Licensed Uses under

this Agreement provided that Licensee provides the District with adequate security, as determined by the Park District in its sole discretion, to cover any potential liability that may arise if the alleged violation is substantiated. If the Park District elects to suspend the License after receipt of notice of an alleged violation, and said violation is later determined to be unfounded, the term of this Agreement shall be automatically extended for a period of time equal to the length of the suspension.

- (c) District is ordered to do so by any regulatory body or other governmental agency having jurisdiction.
- (d) Licensee shall have (a) filed a voluntary petition in bankruptcy or made an assignment for the benefit of creditors; (b) consented to the appointment of a receiver or trustee of all or part of its property; or (c) an involuntary petition in bankruptcy shall have been filed in regard to Licensee and the same shall not have been dismissed within ten (10) days of such filing.
- (e) The Licensed Property is taken by another governmental body through the exercise of its powers of eminent domain.
- (f) The Licensed Property, Central Park North Fields or any portion(s) thereof, become subject to any tax
- (g) The Board of Park Commissioners of the District is unable to, or abandons its plans to construct the Improvements.

District further reserves the right to terminate the License and this Agreement if District requires any of the Licensed Property in furtherance of its park and recreation purposes, which would preclude the continuation of any Licensed Uses, in which event District will give Licensee not less than six (6) months prior written notice. In the event that this Agreement is terminated by District because District requires any of the Licensed Property in furtherance of its park and recreation purposes prior to an anniversary date, Licensee shall be entitled to a refund in an amount equal to the License Fee divided by 365 and multiplied by the number of days that would have been remaining until the anniversary date of the License.

The indemnification and hold harmless obligations and all other obligations of Licensee accruing prior to the expiration or termination of this Agreement or the License granted Licensee hereunder shall survive the expiration or termination of the Agreement or License.

Licensee reserves the right to terminate the License immediately upon notice to District in the event:

- (a) District violates or fails to perform its obligations under any of the terms, conditions or provisions of this Agreement and fails to cure any such breach of this Agreement, which by its nature is susceptible to cure, within thirty (30) days after District's receipt of written notice of such breach. If District violates or fails to perform its obligations under any of the terms, conditions or provisions of this Agreement and fails to cure any such breach of this Agreement as such cure process described

above may apply, Licensee may pursue any and all legal and equitable remedies.

- (b) Licensee shall have (a) filed a voluntary petition in bankruptcy or made an assignment for the benefit of creditors; (b) consented to the appointment of a receiver or trustee of all or part of its property; or (c) an involuntary petition in bankruptcy shall have been filed in regard to Licensee and the same shall not have been dismissed within ten (10) days of such filing.
- (c) The Licensed Property, Central Park North Fields or any portion(s) thereof become subject to any tax
- (d) The Board of Park Commissioners of the District is unable to, or abandons its plans to construct the Improvements.

Neither Party shall be liable for any consequential damages incurred by the other Party. Except for claims arising from District's willful and wanton conduct, in no event shall District's aggregate liability, if any, exceed the sum total of the License Fee paid during the six month period immediately preceding the accrual of such liability.

21. No Implied Waiver of District's Rights. No waiver of any rights which District has in the event of any default or breach by Licensee under this Agreement shall be implied from District's failure to take any action on any such breach or default and no express waiver shall affect any breach or default other than the breach or default specified in the express waiver and then only for the time and to the extent therein stated.

22. Notices. Notices shall be deemed properly given on the date received if given in writing and either (a) hand delivered; or (b) sent by facsimile transmission before 5:00 pm; or (c) sent by email before 5:00pm; or (d) sent by registered or certified mail, return receipt requested, and such notice is hand delivered or sent to the Parties at their respective addresses provided below, or as either Party may otherwise direct in writing to the other Party from time to time. EXHIBIT D
INSURANCE REQUIREMENTS

Licensee shall obtain insurance of the types and in the amounts listed below.

A. Commercial General and Umbrella Liability Insurance

Licensee shall maintain commercial general liability (CGL) and, if necessary, commercial umbrella insurance with a limit of not less than \$2,000,000 each occurrence. If such CGL insurance contains a general aggregate limit, it shall apply separately to this location.

CGL insurance shall be written on Insurance Services Office (ISO) occurrence form CG 00 01 04 13, or a substitute form providing equivalent coverage, and shall cover liability arising from premises, operations, independent contractors, products-completed operations, personal injury and advertising injury, and liability assumed under an insured contract (including the tort liability of another assumed in a business contract).

District, and its park commissioners, officers, employees, agents, and volunteers (collectively the "Additional Insureds") shall be included as an insured under the CGL, using ISO additional insured endorsement CG 20 26 or a substitute providing equivalent coverage, and under the commercial umbrella, if any. This insurance shall apply as primary insurance with respect to any other insurance or self-insurance afforded to District. Any insurance or self-insurance maintained by the District shall be excess of Licensee's insurance and shall not contribute with it.

B. Business Auto and Umbrella Liability Insurance

If applicable, Licensee shall maintain business auto liability and, if necessary, commercial umbrella liability insurance with a limit of not less than \$1,000,000 each accident. Such insurance shall cover liability arising out of any auto including owned, hired and non-owned autos.

Business auto insurance shall be written on Insurance Services Office (ISO) form CA 00 01, CA 00 05, CA 00 12, CA 00 20, or a substitute form providing equivalent liability coverage. If necessary, the policy shall be endorsed to provide contractual liability coverage equivalent to that provided in the 1990 and later editions of CA 00 01.

C. General Insurance Provisions

1. Evidence of Insurance

Prior to using the Licensed Property, Licensee shall furnish District with a certificate(s) of insurance and applicable policy endorsement(s), executed by a duly authorized representative of each insurer, showing compliance with the insurance requirements set forth above.

All certificates shall provide for 30 days' written notice to District prior to the cancellation or material change of any insurance referred to therein. Written notice to District shall be by certified mail, return receipt requested. If the certificate does not provide for 30 days' written notice to District prior to cancellation or material change of any insurance referred to in the certificate, Licensee shall furnish such written notice to District by certified mail, return receipt requested, not less than thirty (30) days prior to cancellation or material change.

Failure of District to demand such certificate, endorsement or other evidence of full compliance with these insurance requirements or failure of District to identify a deficiency from evidence that is provided shall not be construed as a waiver of Licensee's obligation to maintain such insurance.

District shall have the right, but not the obligation, of prohibiting Licensee from occupying the Licensed Property until such certificates or other evidence that insurance has been placed in complete compliance with these requirements is received and approved by District.

Failure to maintain the required insurance may result in termination of this Agreement at District's option.

Licensee shall provide certified copies of all insurance policies required above within 10 days of District's written request for said copies.

2. Acceptability of Insurers

For insurance companies which obtain a rating from A.M. Best, that rating should be no less than A VII using the most recent edition of the A.M. Best's Key Rating Guide. If the Best's rating is less than A VII or a Best's rating is not obtained, the District has the right to reject insurance written by an insurer it deems unacceptable.

3. Cross-Liability Coverage

If Licensee's liability policies do not contain the standard ISO separation of insured's provision, or a substantially similar clause, they shall be endorsed to provide cross-liability coverage.

4. Deductibles and Self-Insured Retentions

Any deductibles or self-insured retentions must be declared to the District. At the option of the District, the Licensee may be asked to eliminate such deductibles or self-insured retentions as respects the District, its park commissioners, officers, officials, employees, volunteers and agents or required to procure a bond guaranteeing payment of losses and other related costs including but not limited to investigations, claim administration and defense expenses.

**OAK BROOK PARK DISTRICT
ORDINANCE NO. 25-0721**

**AN ORDINANCE IMPLEMENTING THE PROVISIONS OF THE STATE
OFFICIALS AND EMPLOYEES ETHICS ACT (5 ILCS 430/1-1 ET SEQ.)**

RECITALS

WHEREAS, the Illinois General Assembly has enacted and amended the State Officials and Employees Ethics Act (codified at 5 ILCS 430/1-1 et seq.), which regulates ethical conduct, political activities and the solicitation and acceptance of gifts by State officials and employees; and

WHEREAS, the Act requires all units of local government and school districts to adopt ordinances or resolutions regulating the political activities of, and the solicitation and acceptance of gifts by, the officers and employees of such units "in a manner no less restrictive" than the provisions of the Act; and

WHEREAS, it is the intention of the Act to require units of local government to impose penalties for violations of those regulations that are equivalent to those imposed by the Act, notwithstanding that such penalties may exceed the general authority granted to units of local government to penalize ordinance violations; and

WHEREAS, because the Act provides for the imposition of significant penalties for violations of said local regulations, it is necessary to adopt the required regulations by Ordinance rather than by Resolution.

Step II: Presentation of Complaint/Hearing with the Board

- The Complaint will be presented in a closed session, at a time determined by the Board President ("Initial Closed Session Meeting"). The accused Commissioner shall be given no less than twenty-four (24) hours' prior notice of Initial Closed Session Meeting. The Board President will present the Complaint to the entire Board. The accused Commissioner will then have an opportunity to respond to the Complaint. Only information pertinent to the Complaint shall be discussed at the Initial Closed Session Meeting.
- If the matter is not resolved upon this initial presentation and discussion of the Complaint, the matter shall be advanced to a formal Hearing before the Board, as provided in Step III.

Step III: Sanction Procedures

- In the event the Board determines the alleged violation in the Complaint warrants discipline of the Commissioner, the matter shall be scheduled for a hearing before the Board ("Hearing"). A Hearing in closed session shall be scheduled by the Board President at a time and date convenient for the accused Commissioner, however, in no event shall the Hearing be held beyond a period of thirty (30) days from the date of Initial Closed Session Meeting, unless good cause is shown for said extension.
- The Board President shall present the information and evidence relating to the Complaint. The accused Commissioner will then be afforded an opportunity to respond to the allegations in the Complaint and to provide and offer any information or evidence in support of his or her defense against the allegations in the Complaint. Thereafter, the Board will deliberate in the presence of the accused Commissioner and will determine whether or not sufficient information was provided to support the allegations in the Complaint and, if so, whether discipline of the accused Board Member is necessary and/or appropriate.
- When a violation is determined by a vote of two-thirds (2/3) of the entire Board, after affording the accused Commissioner an opportunity to be heard, the Board

Oak Brook Park District
Administrative Policies and Procedures

Policy: 1.1

may impose discipline, as provided for herein. The discipline imposed shall be determined based upon the same two-thirds (2/3) vote of the Board. The Board can thereafter determine by a two-thirds (2/3) vote as to whether any discipline imposed shall be done in open or closed session meeting of the Board.

Step IV: Decisions Final

- It is understood that the decision, as reflected in a vote of two-thirds (2/3) of the entire Board shall be a final decision. The Board shall maintain all Board meeting minutes as required by law.

4. Forms of Discipline:

- The accused Commissioner will not be subject to discipline in the event a determination is made that the allegations in the Complaint were false or sanctions are otherwise not warranted.
- If after the Complaint and a Hearing is completed as outlined above, a determination has been made that the Commissioner violated the Code of Conduct, the Rules, or any state or federal law, the Board may impose a disciplinary action against said Commissioner. The determination to impose said sanction must be approved by a vote of two-thirds (2/3) of the entire Board. Corrective measures or discipline will be appropriate to the alleged violation, considering the facts and circumstances and applicable law. Such discipline may include but not be limited to the following:

a. Oral Reprimand/ Censure

b. Written Reprimand

- If the violation is more serious in nature or is a continuation of a previously determined violation.

c. Meeting Suspension

- If the violation is more serious in nature or is a repeat or continuation of a previously determined violation.

Instead of entering the names of the Commissioners voting yea and nay on the passage of each of the designated ordinances, orders, resolutions and motions included in the consent agenda, a single vote shall be entered in the minutes for the consent agenda. The taking of a single vote and the entry of the words "consent agenda" in the minutes shall be sufficient compliance with the requirements of this section of the Board's Rules. At the request of any individual Commissioner, an item may be removed from the consent agenda for further discussion and a separate vote. Items that may be placed on the consent agenda include, but are not limited to, approval of minutes, approval of monthly expenditures, approval of committee reports, and approval of ordinances, resolutions or policies previously discussed and on which there was a consensus of the Commissioners. Items that may not be placed on the consent agenda include but are not limited to bond ordinances, and ordinances, resolutions or policies on which no consensus has been reached by the Commissioners. If any item on the consent agenda requires a greater vote for passage than a majority vote of all elected Commissioners, the entire consent agenda must be approved by the required vote.

D. In general, a vote or action of the Board may be reconsidered at any time, so long as there are as many Commissioners present as when the vote was originally taken. However, if the District

has already approved a contract or made a commitment to a third party based on a prior vote, and such party has reasonably relied on the Board's action, reconsideration will not be allowed. A motion to reconsider must be made by a Commissioner who voted on the prevailing side when the vote was originally taken. If there is a change in the membership of the Board, by appointment or election, except as otherwise provided herein, reconsideration of a previous vote may be initiated by motion of any Commissioner and approved by a majority of the Commissioners. Once a motion for reconsideration is defeated, it may not be renewed or reconsidered.

ITEM HISTORY(PREVIOUS PARK DISTRICT BOARD REVIEWS, ACTIONS RELATED TO THIS ITEM, COMMITTEE ACTION, OTHER PERTINENT HISTORY):

Since 2021, the district has considered installing a solar photovoltaic (PV) system of panels on the Family Recreation Center to generate electricity. At that time, the decision was made to postpone any such installation until the largest roof sections of the facility, upon which the solar array would be installed, had been replaced. In 2024, the three-phased roof replacement project was completed.

The district hired Belden Energy Solutions to assist with a public Request for Proposal (RFP) solicitation for a solar photovoltaic system on the Family Recreation Center. The RFP was available beginning on June 20th and concluding on July 9th. A total of three responses to the Request for Proposal were received from solar investors, including DSD Renewables, ForeFront Power, and Redaptive Capital. Redaptive Capital failed to provide responses to the solicitation other than a cost, so they are considered non-responsive. Please see the summary and recommendations for further detail.

The following documentation includes the responses from both ForeFront Power and DSD Renewables.

ITEM COMMENTARY (BACKGROUND, DISCUSSION, KEY POINTS, RECOMMENDATIONS):

Staff reviewed the responses with Belden Energy Solutions and discussed the capabilities of each solar investor. Staff recommends accepting the proposal from ForeFront Power subject to successful contract negotiations for a Power Purchase Agreement between the Oak Brook Park District and ForeFront Power.

ACTION PROPOSED:

A motion (and a second) to accept the proposal from ForeFront Power subject to successful contract negotiations for a Power Purchase Agreement between the Oak Brook Park District and ForeFront Power.

Oak Brook Park District Solar PV RFP Summary & Recommendations

Introduction

At the request of the Oak Brook Park District Board, Belden Energy Solutions (BES) in conjunction with General Energy Corp. (GEC) solicited several solar PV finance companies for Power Purchase Agreement (PPA) proposals. GEC is the Engineering, Procurement and Construction (EPC) company that has conducted on-site assessments at the District's FRC facility.

PPA financing is unique in the sense that it not only offers long-term financing for a solar PV system, but the PPA agreement also provides ongoing O&M for the duration of the 15 to 25-year initial term.

Requests for proposals went out to six solar investment firms who have expressed an interest with recent projects BES/GEC has managed for other clients. The PPA proposal requests are not typical "sealed" bids whereby a specific project is well-defined by specifications that are not subject to further negotiations. In this type of RFP, the lowest bidder's price is deemed as the winning bid since all terms and conditions have been accepted as a pre-condition of the bidding process. The solar proposals follow a different path where PPA prices are subject to a variety of non-price issues that need to be evaluated by the District before selecting an approved solar investor. In addition, the PPA agreements are non-standard with customized terms & conditions negotiated between the parties.

Summary

The BES/GEC sent the RFP directly to six solar investment companies that have expressed interest in financing mid-sized solar PV projects like the FRC project. In addition, the District posted a published notification of the RFP in a local newspaper. BES/GEC received three proposals back before the specified due date. Formal proposals were received from DSD Renewables, ForeFront Power, and Redaptive Capital. Besides a PPA rate, Redaptive did not provide any additional information requested in the RFP. Redaptive's PPA price indication was higher than DSD and ForeFront so no further analysis was provided. BES/GEC conducted all proposal reviews in an independent manner at arms-length from any bidder.

BES/GEC analyzed the DSD and ForeFront proposals since they provided substantial responses covering price and non-price attributes. BES/GEC created an Evaluation Matrix to categorize and rank responses in three general areas – 1.) Pricing, 2.) Company Experience/Capabilities and 3.) Financial Considerations. Pricing receives the most weighting (50 points) while Experience is weighted 20 points and Financial Considerations is weighted 30 points.

The Evaluation Matrix is attached for your review.

Recommendations:

ForeFront Energy

BES/GEC scored each proposal based on price and non-price attributes. While DSD has provided lower pricing, their RFP responses and past performance regarding financing/payment and project management have been below a level of expectation. Financing has become more critical in recent years due to abrupt changes in federal and state solar regulations. Sunnova Energy and Solar Mosaic are two prominent solar firms that have declared Chapter 11 protection. The Wall Street Journal noted continuing pressure on solar bond prices of several companies trading at 42¢ on the dollar for long term debt while some bond issuers have halted interest payments (July 11th print). In another recent Wall Street Journal article (July 3rd print), Sunnova was struggling to provide construction payments to numerous solar installers under contract to install Sunnova solar systems. DSD has experienced recent cashflow issues that resulted in missed scheduled payments to contractors. The missed payments create uncertainty, work stoppages and undo project delays. While DSD has assured us these problems are behind them, this nevertheless created a stain on their reputation. BES/GEC has asked DSD to provide adequate assurance to guarantee payments (letter of credit, lock box, performance bond, pre-payment, etc.) but they have not committed to any positive movement.

ForeFront Power is a major solar PV finance provider serving many large Illinois School Districts. Their approach to business is to internalize project financing through their parent rather than seek third party financing from outside sources. This provides greater certainty to the District's project. They also tend to rely less on third party contract employees to manage solar projects.

ForeFront has provided a project timeline that is superior to DSD with the goal of an operational system by early summer 2026 rather than Spring of 2027. All things considered, getting the District's project into safe harbor (meeting IRS definitions of "start of construction") and the quicker the project comes on-line, the lower the risk to any future project economics change. The earlier start (about 8 months earlier) benefits the District since it will allow electric savings to start much earlier than DSD's timeline.

ForeFront also has access to domestic solar panels and other U.S. produced solar equipment. This is important for providing an additional 10% ITC credit (savings passed through to the District) and can also help if any future changes to federal ITC rules penalize solar projects who use foreign made solar equipment.

Cover Letter

July 9, 2025

Dear Mr. Jaswal,

Distributed Solar Development ("DSD") is pleased to submit the enclosed Proposal in response to the Request for Proposals for the development of a rooftop solar photovoltaic project at the Oak Brook Park District ("the District") Family Recreation Center.

To date, we have deployed over 500 MW of commercial and industrial (C&I) solar projects, including many projects for municipalities and government entities. This includes a **growing portfolio of rooftop PV solutions developed in Illinois**. Our team of experts includes development engineers and commercial analysts who have personally reviewed the design and pricing that you will find in this proposal.

DSD sees itself as driving the evolution to a cleaner, more secure, and more customer-focused energy future. As a highly experienced developer with a deep bench of solar industry talent, **DSD provides customized turnkey PV energy and energy storage solutions** to businesses and public institutions throughout North America. From analysis, to design, finance, commercial operation and asset ownership, DSD delivers its customers long-term economic value that has real environmental impact.

We have carefully read all the provisions in the RFP. Distributed Solar Projects, LLC is responding to this RFP, and if awarded, the counterparties to the agreements will be a subsidiary or affiliate of Distributed Solar Projects, LLC.

The information contained in this response is not generally available to the public and is protected from release under the Illinois Freedom of Information Act.

Executive Summary

DSD proudly responds to this RFP having made every attempt to consider value for the Oak Brook Park District. We are recognized as a leader in solar PV and energy storage because of our team's experience, innovation, and record of delivering high quality solutions at a very competitive price. Our proposal began with reviewing the RFP, analyzing the most valuable Adjustable Block Program incentive strategy, and enhancing our designs to augment the economic benefits for the District.

Our proposal includes an optimized design for your review and consideration - a fixed-tilt rooftop-mount PV array designed to maximize production within the available area. The details of our proposed PV arrays are summarized below, and further information can be found in Section A of this Proposal. To achieve the most efficient design offering the greatest value to the District, our team of development engineers and commercial analysts contemplated iterative design scenarios to arrive at the most optimal system parameters.

Pricing is valid for 30 days after submittal of this proposal. DSD will make every effort to honor pricing proposals beyond this time period as long as market conditions and commodity prices allow. If the District anticipates a longer time frame is needed, please contact Katherine Lillydahl.

Table 1. Design Scenarios

Site	PV System Size (kWdc)	Est. Year 1 PV Production (kWh)	Load Offset (%)
Oak Brook Park District	607.1 kW DC	789303	~76%
Total	607.1 kW DC	789303	~76%

Reflected in this proposal are the following key details:

- Competitive pricing inclusive of top tier equipment (Bloomberg Tier 1 Equipment)
- Robust experience with onsite solar in Illinois and pricing inclusive of current Adjustable Block Program incentive values
- A close working relationship with ComEd and familiarity with interconnecting distributed energy resources in this service territory
- Extensive experience working with General Energy in IL, specifically on other Park District projects

DSD would be honored to partner with the District on this exciting opportunity. We believe projects like this foster the community impact that DSD seeks to achieve.

A. Price Offering

Pricing Overview

DSD is pleased to provide this proposal to the Oak Brook Park District and General Energy for review and consideration. The PPA rates summarized below are reflective of our structured finance capabilities and the set of assumptions outlined later in this section. DSD is offering 15-year and 20-year PPA rate options with a 0% annual escalation rate for the District's consideration.

DSD also presents additional scenarios assuming higher values of the ITC based on the Inflation Reduction Act. As a base case, the system will be eligible for the ITC at the 30% level. Based on publicly available resources, the site is located in an energy community (based on location in the Chicago-Naperville-Elgin MSA which meets the Fossil Fuel Employment threshold and unemployment rate requirement to be classified as an energy community) and eligible for the 10% energy community adder.

Our proposal assumes current law with respect to the ITC. Recently enacted legislation states that qualified solar and wind facilities must now be placed in service (PIS) by December 31, 2027, unless such facilities begin construction within 12 months after the date of enactment of the bill. Those facilities will have four years to be PIS. While the current structure of the ITC remains unchanged from the passage of the Inflation Reduction Act in 2022, a phasedown of the ITC has begun. **DSD will endeavor to secure current ITC values using safe harbored modules if General Energy is unable to begin construction within 12 months of the date of enactment of the bill. Specific pricing scenarios for safe harbored modules are included in Table 1.**

Pricing is valid for 30 days after submittal of this proposal. DSD will make every effort to honor pricing proposals beyond this time period as long as market conditions and commodity prices allow. If the District anticipates a longer time frame is needed, please contact Katherine Lillydahl.

General Energy has provided the EPC pricing for this project, and DSD assumes that this takes into account any and all tariffs on equipment. If this does not, DSD will require a tariff slider in the contract that will pass along any cost increases due to tariffs to the customer.

Financing Ability

DSD stands apart from competitors because of its internal Finance team dedicated to securing funds to develop, construct, own and operate distributed energy assets. With over \$2 billion in project funds raised with top-tier financial partners — like Morgan Stanley, Bank of America, Atlas SP, HSBC, Santander, CNB and Rabobank, and backed by Ares Management Corporation, BlackRock Real Assets, and Cox Enterprises, DSD brings a high level of financial stability to a robust and diverse portfolio of project assets we develop, own, and operate long-term.

These unparalleled partnerships, and the funds we've built with them, allow us to focus on developing the best solutions for our customers. With the confidence of secured funding, we're able to deliver even the most diverse and complex offerings. Whether it's onsite renewable solutions, or community solar, DSD is able to finance and own these assets, taking the burden off of our customers to finance these projects themselves.

DSD's in-house team evaluates each project site we take on to determine its value over the agreement period. We're able to package our individual projects into larger portfolios with a balanced risk profile. This strategy lowers the cost of capital allowing DSD to provide customers with the most secure and competitive rate in the market. And, by having secured capital in each stage of the development process, it allows us to offer a seamless financing management process without impacting project schedules.

Solar Experience

DSD has successfully **deployed more than 500 MW of solar and energy storage projects across the country**. Additionally, we have over 300 MW of solar and energy storage projects currently in various stages of development and construction, mostly financed through PPAs and Lease Agreements. Our team's collective experience exceeds 1,000 GWh of clean energy produced annually through turnkey solar and storage systems across thousands of C&I projects.

Illinois Experience

Illinois is a strong solar market thanks to the strength of the Illinois Shines/Adjustable Block Program (ABP) that supports the state's renewable and clean energy goals. We have over 20 operational projects in Illinois, representing 17 MW of capacity, as well as over 70 MW of projects in various stages of development and construction that will achieve commercial operation over the next few years.

DSD has partnered with General Energy to deploy a 1.54 MW portfolio of rooftop solar projects across three park districts in Illinois. The installations, located in Elmhurst, Sycamore, and Urbana, are estimated to generate approximately 1.8 GWh of solar energy each year that can be used to power operations and reduce carbon footprint. The portfolio consists of five rooftop solar installations:

- The Elmhurst Park District will host a 723.93 kW system that is expected to generate 793.5 MWh per year.
- The Sycamore Park District's installations for its community center (221.25 kW) and maintenance building (110.33 kW) will total 331.58 kW and produce 397.2 MWh annually.
- The Urbana Park District portfolio will have systems at its planning and operations building (217.12 kW), as well as its health and wellness building (270.22 kW), amounting to 487.34 kW with an anticipated generation of 594.8 MWh a year.

Figure 5. Distribution of DSD's operating solar portfolio and backlog

Through an RFP process, DSD was selected by Lowe's to deploy solar arrays at 36 sites in Illinois, including three major distribution centers. These investments will help Lowe's reduce its operational emissions and reach its goal of having its operations powered with 50% renewable energy by 2030.

DSD was selected to spearhead project implementation plans, site selection, financing, and incentive capture for The Home Depot's renewable energy program expansion across the east coast, which has since been expanded to include retail locations in Illinois and other markets across the United States.

C. Reference Projects

City of White Plains, NY

The City of White Plains with New York Power Authority (NYPA) selected DSD as the winner of their competitive RFP process. DSD stood out with our extensive experience building multiple sites concurrently, our in-house project funding that offers flexibility with financing, and with our proprietary canopy water and ice management system technology that not only provides a covered parking structure, but also redirects water and ice to protect individuals and cars. DSD owns and operates the entire portfolio, while leasing the sites from the city. Rather than paying out for a solar build, the city receives a fixed and predictable source of monthly income for hosting it. The city, the surrounding businesses, and its residents also subscribe to these projects and benefit from cleaner, cheaper energy. Leveraging our solar canopy expertise, DSD designed and installed an enclosed solar canopy to bring protected storage for the City of White Plains' water department, helping avoid a significant capital spend in a tight budget year. At the Gedney Way Recycling Facility, DSD's innovative team designed the first floating foundation canopy mounted on a landfill cap: a permitted, above-grade solution enabling 33% more solar capacity, which increased lease revenue to the City by nearly 50%.

Township of Monroe

DSD was selected through a competitive bidding process as the Township of Monroe's partner for the design, installation, financing, and operations, maintenance of solar ground mount, canopy, and rooftop systems at six sites across the Township. The project resulted from a joint solar initiative comprised of the Monroe Township School Board, the Municipal Utilities Authority (MUA), and the township council that sought nontraditional ways to help taxpayers and promote sustainability through cost-effective solar power. The portfolio includes solar arrays at three schools, as well as at the Township municipal complex and public library, and near the MUA building.

Schenectady County, NY

The County of Schenectady in New York partnered with DSD in 2019 to develop a 24 MW ground-mount portfolio of community solar projects across seven sites. The portfolio's anchor offtakers are the municipalities and cities of Schenectady County, which stand to save 20-30% on energy costs. Community solar will be available for residents to purchase at a 10% discount. The seven projects - including three landfill sites - will save the county up to \$800,000 annually and make it 100% solar-powered. Two of those landfill sites, located in the towns of Glenville and Rotterdam, each include 10,000 kW of battery energy storage systems (BESS). This places them among the largest BESS installments in New York State. One of the portfolio's sites was a tax-foreclosed property that previously housed an old hotel and was repurposed by DSD. Another site is located near the county-owned Glendale Home, a senior living and caregiving community that will save on energy bills thanks to a portion of solar Value of Distributed Energy Resources (VDER) credits. The projects were interconnected with National Grid and supported by state funds and incentives from NYSEERDA.

Performance Guarantee

DSD will guarantee that for each True-Up Period, the Actual kWh Production shall be at least the Guaranteed Production for that true-up period minus any Excused Production Losses. The Guaranteed Production will be calculated as 85% of predicted output (modeled output) for the first year.

Duration: The Performance Guarantee is contingent upon there being an executed PPA or O&M services agreement in effect for the PV system and the guarantee shall remain in effect for the term of said agreement.

True-up Period: 5 years

Value of Shortfalls: If the Actual kWh Production for any True-Up Period is less than the Guaranteed Production minus any Excused Production Losses for that True-Up Period, DSD shall provide a credit equal to the product of the Production Shortfall in kWh multiplied by the applicable estimated per kWh value of solar as follows the difference between the average variable utility rate and the PPA rate (in \$/kWh).

The average variable utility rate of electricity for the True-Up period in dollars per kWh shall be calculated by summing all energy charges for electricity billed by the utility during the True-Up period and dividing by the total number of kWh imported from the utility during the True-Up period.

Production Adjustments: Actual kWh Production shall be the net kWh generated by the PV system as recorded by the revenue meter for the PV system and adjusted only to correct for measurement error if it can be demonstrated to the satisfaction of all parties that such a correction is justified.

Excused Production Losses: Loss of production due to factors outside of DSD's control to include, but not be limited to, the following:

- **Force Majeure Events:** lost production during the Guarantee term from the beginning of a force majeure event (force majeure as defined in the O&M agreement) until production limiting factors caused by the event have been remedied.
- **Grid Event:** Lost production during the Guarantee term when a fluctuation in the grid frequency or voltage causes the inverters or the solar facility to disconnect from the grid. The grid is defined to be the system receiving power exported from the solar facility.
- **Grid Outage:** Lost production during the Guarantee term when a failure in the grid or Interconnection Infrastructure prevented energy from being exported from the solar facility. Interconnection Infrastructure means that utility-owned and maintained interconnection equipment (substation equipment including but not limited to transformers, switches, and protective relays) that is used to connect the Facility to the utility grid. Grid operator/owner ordered curtailments for any reason other than an issue in the solar facility are a Grid Outage.
- **Weather Events:** Lost production from weather that limits or prevents operation of the solar facility including floods, snow, hurricanes, tornadoes, insolation-limiting wildfires, and volcanic activity.
- **Owner Caused:** Lost production during the Guarantee Year when solar facility dc capacity is off-line due to outages attributable to Owner's and or site owner's decision to perform or cause to be performed, any investigations, studies, operations, construction, installation and maintenance work or other activities deemed appropriate by Owner in its sole discretion.
- **Soiling or Shading:** Lost production from new soiling or shading sources not present or disclosed to DSD at the time of the initial site survey.

E. Operations, Maintenance, and Monitoring

Operations and Maintenance

DSD is proud to serve as the long-term owner and operator of the project, providing strong motivation to safely and proactively maintaining the arrays for the duration of the contract. We approach ongoing O&M with the highest standard, providing data acquisition software, planned preventative maintenance and timely response to critical failures.

In addition to the Team Leader, Katherine Lillydahl, DSD proudly designates a post-construction staff member from our O&M team who will serve as the primary point of contact for the District during the term of the PPA. Chris Larkin, our Vice President of Fleet Operations, has been with DSD since its original days at GE and currently leads the O&M department. Chris and his team will maintain regular progress updates and address all performance items during the term of the project.

Figure 12. DSD's Provisions

Top Tier Equipment

DSD utilizes Tier 1 equipment, including panels and inverters. We have specified a standard utilization of Hanwha panels at each site and in every system configuration which leverage a high-density module. We utilize an industry standard degradation rate of 0.5%.

Regarding inverter details, the SMA inverters specified for this project have an efficiency rating of 98+%. Panel life expectancy is 35+ years and inverters are 15+ years. Inverters are typically replaced once during the system life at DSD's expense.

Data Acquisition

DSD will provide an AlsoEnergy PowerTrack data acquisition monitoring system for each system. This solution uses real world, field tested, and time proven hardware and software. All our systems include cellular based modems (provided by DSD) to collect data from the facility, as well as the ability to measure solar system energy delivery, ambient temperature, cell temperature, wind speed, solar radiation, and remote inverter data delivery and exporting, including alarms.

Planned Preventive Maintenance

Like any asset, preventative maintenance is essential to ensuring the solar array remains in peak operating condition long term. The equipment and material used at each site have varying levels of maintenance requirements and intervals to uphold warranties and ensure your system continues to operate as intended throughout the year. As part of our Planned Preventative Maintenance service, DSD will periodically conduct inspections and testing tailored for the site.

Response to Critical Failures

When our Monitoring team is alerted to the need for unscheduled maintenance, through automated pings, data analysis, visual inspection, etc., we dispatch a local technician. The technician may perform corrective action to solve the issue immediately if qualified (or certified). If not, we will dispatch a specialized contractor (e.g., medium voltage electrician, data communications expert) or vendor specialist (e.g., inverter OEM) and manage the process to completion.

Monitoring Solution

DSD deploys AlsoEnergy PowerTrack as the primary data acquisition and remote monitoring solution in the assets it builds, owns, operates and maintains. PowerTrack allows our team of Asset Managers to monitor real-time performance of the systems be notified of any unusual changes in production or performance of the systems. The overall monitoring system includes the following list of monitoring equipment:

- Revenue-Grade Meters
- Cell Modem
 - o Connected to cloud-based platform (Powertrack) for ease of access
 - o Updates occur every 3-5 min
- Data Loggers/Power Loggers (collecting data from all major components)
 - o Production meter data
 - o Inverter data
 - o Weather station data
 - o Gauge and Sensor data
- Weather Stations
 - o Irradiance sensors
 - POA (Plane of Array)
 - GHI (Global Horizontal Irradiance)
 - o Temperature gauges
 - Ambient
 - Cell Temperature
 - o Rain Gauge

The high-level characteristics and capabilities of the AlsoEnergy software include:

- Paired with a Cell modem and a data plan (much like a cell phone)
- Users have remote access to platform
- There are Kiosk interface solutions for Site host customers
- Collects data 24/7

RFP Supplement

- A PPA quote subject to the successful negotiation on contract terms and conditions. Provide a list and explanation of any additional costs that could be billed to customer that are not covered in the PPA rate.
 - o Fixed PPA Rate for 15-year term _____ \$0.0488/kWh _____
 - o Fixed PPA Rate for 20-year term _____ \$0.0480/kWh _____
- A brief company overview, including experience in ComEd territory, team qualifications, and financial stability.
 - o Please cut and paste response if previously provided. Note: financial stability and the ability to provide EPC payments in a timely manner is a critical response item. Please refer to Section B.
- A minimum of three similar reference projects, showcasing your track record in successfully deploying similar projects.
 - o Preference for Illinois clients, School or Park Districts or similar sized projects. Please refer to Section B and C.
- Proposed payment schedule to the solar EPC firm.
 - o Accelerated payment terms or conventional credit assurances (letter of credit, surety bonds, lock box arrangements) are preferred due to the condensed timeline in ITC availability. Demonstrate how your company can comply with payments terms/security arrangements agreed to in a contract with GEC.
 - o Net 30-day payment terms per the EPC Agreement with General Energy
- Warranty, insurance, and performance guarantee details.
 - o Please refer to Section D.
- Provide details regarding maintenance and monitoring of the solar installation.
 - o Please refer to Section E.
- List out any equipment substitutions that differ from General Energy's specifications.
 - o If your company has equipment warehoused and ready to allocate to this project, please provide details so it can be considered into "start of construction" determination. General Energy has provided the EPC pricing for this project, and DSD assumes that this takes into account any and all tariffs on equipment. If this does not, DSD will require a tariff slider in the contract that will pass along any cost increases due to tariffs to the customer. DSD has also provided pricing that would assume the ability to safe harbor the Investment Tax Credit through modules that DSD already possesses.
- Provide details how bidder will accommodate the potential September sunset of Federal ITCs for this project. Provide contingencies to address IRS "start of construction" criteria.
 - o Please also provide details of any assurances your company will provide to secure safe harbor status for full ITC benefits. What happens if your company fails to meet safe harbor status?
 - o Our proposal assumes current law with respect to the ITC. Recently enacted legislation states that qualified solar and wind facilities must now be placed in service (PIS) by December 31, 2027 unless such facilities begin construction within 12 months after the date of enactment of the bill. Those facilities will have four years to be PIS. While the current structure of the ITC remains unchanged from the passage of the Inflation Reduction Act in 2022, a phasedown of the ITC has begun. DSD will endeavor to secure current ITC values using safe harbored modules if General Energy is unable to begin construction within 12 months of the date of enactment of the bill.

- If the listed timeline listed in this RFP is not feasible for your company, please provide an alternative timeline.

Our goal is to maximize solar energy production to maximize the economic value to the District. DSD and its construction partners will begin efforts by engaging all integral stakeholders to ensure we have complete design and construction concepts approved. We understand how vital early collaboration is to the success of projects being completed on time with minimal site disruption. Before any active mobilization, DSD and General Energy will host a "construction kick-off" meeting with the facility-designated leads to guarantee open communication of the project schedule, sequence, safety standards and review of loading, staging and working areas. All construction activities will be conducted to maximize efficiency, safety, schedule and budgetary objectives. DSD and General Energy will host regular updates with the District. As the construction is completed, we will conduct a final meeting with the Site to sign off on the completion of punch-list items. As part of the project closeout, DSD will provide a copy of the final approved permits, as-built drawings, permission-to-operate (PTO) and system documentation that will include, but not be limited to, component warranties, cut sheets, etc. Training materials can be made available for security and local responders should the system need to be shut down for emergency reasons. We hold our subcontractors to the highest standard, ensuring that their work is completed to the satisfaction of the District before demobilizing. The DSD team that would be assigned to this project is comprised of industry veterans with a deep understanding of the development, financing, engineering, and construction of power generation assets in commercial, industrial, institutional, and municipal environments.

Executive Summary and Pricing

Leading Experience and Market Experience in Illinois

We are one of the most experienced and successful solar developers in the market. We are known for our track record of building projects on time and within budget, while meeting customer expectations every step of the way. For a full list of projects we have developed in the Public Sector, please see (Exhibit 8)

To date, we have over 265MW across 89 projects that are under development or in operation. **Our current Public Sector customers in IL include, among others: Huntley CSD 158, Rockford Public Schools 205, Herscher CUSD 2 and Bradley-Bourbonnais CHSD 307.** We are excited to bring our expertise with the public-school segment to bring Oak Brook Park District's solar project to fruition.

In-House Asset Management

Many solar and storage companies use third-party contractors for asset management services during the life of a system. Not us. Our asset management team are all 100% ForeFront Power employees, at your service when you need them, to ensure optimal operation and swift repairs. We manage all vendors, including operations and maintenance, warranty claims, etc., so we will be your one point of contact throughout the project lifetime. Keeping asset management in-house improves service and the system's health, and it also reduces costs and generates additional savings. We are your long-term partners in this system and will be there with you every step of the way to ensure that the District gets the most out of your solar investment. **ForeFront Power's operating portfolio has a performance index of greater than 99 percent (measured energy versus modeled energy).**

PPA Pricing and Performance Guarantee

ForeFront Power's solution for Oak Brook Park District ("District") **maximizes solar output at your site, ensuring that the District benefits from the lowest responsible price possible.** Our offering and pricing are based on the analysis of the provided conceptual layouts and EPC pricing by General Electric Corp ("GEC").

Our typical PPA offering is often based on a conceptual design (developed by our design team) that has been evaluated for indicative pricing by one or more of our EPC partners. Because the design and tentative schedule for this project have already been created by GEC and provided with this RFP, our PPA rate is based on the provided GEC cost and schedule, not including additional allowances or contingency for the schedule being unattainable or additional cost inflation. In addition to the GEC pricing inclusions listed in the RFP documentation, we are also assuming that the pricing is valid for a system designed and installed in accordance with our design and engineering standards for systems owned and operated in the long term by ForeFront Power. **All pricing presented assumes the IL Shines Large DG Block pricing for Program year 2025-2026, and the ComEd Smart Inverter Rebate.**

If awarded the site, additional diligence will be necessary to further determine the feasibility of the projects (such as analysis of any structural feasibility assessments of the existing roof framing by a licensed structural engineer, roof boundary and topography surveys, site walks with the ability to de-

energize electrical services to confirm tie-in strategy, and land/title reports to identify potential title exceptions.

The pricing provided in the tables below includes the following pricing scenarios:

- a. Energy Community Adder (10%) ITC (total 40% ITC):
 - i. We have determined the District qualifies as an “Energy Community” under the IRA qualifications. This also assumes the design provided by GEC with Qcell modules.
- b. Domestic Content Adder + Energy Communities Adder (total 50% ITC):
 - i. This design includes domestic modules procured by ForeFront Power and the Energy Community qualification.

Table 1. PPA Pricing assuming IRA adders at Oak Brook Park District

Solar PPA	PPA Rate	ITC %	Esc %	Term (Years)	System Size (kWdc)	% Energy Offset	Estimated 20 Year Savings
The Family Recreation Center (GEC Design – Including EC Adder)	\$0.0666	40%	0%	20	606	62%	\$1,472,662
The Family Recreation Center (Domestic Content + EC Adder)	\$0.0587	50%	0%	20	428	51%	\$1,337,378

*All pricing is contingent on changes to EPC costs due to tariffs and inflation, changes in contracting/build schedule, and IRA adder availability.

*Please see the list of changes that could affect the PPA rate below:

- Changes in EPC cost, whether resulting from labor/hardware price increases, changes in design/scope, or schedule impacts.
- Changes in EPC cost if union labor or a Project Labor Agreement is later determined to be necessary to maintain labor harmony
- Construction or discretionary permit fees (if not included in all-inclusive EPC project cost)
- Utility infrastructure upgrades (if determined to be required by interconnection studies)
- Interest rates not improving in the next 6 months

For guaranteed savings, our proposal includes our best-in-class, 90% performance guarantee with a two-year true-up. Thus, if solar fails to produce the promised kWh in a two-year period, we compensate the district for the kWh you had to purchase from your utility.

Please see Exhibit 6 and 7. for ForeFront Power’s Sample Agreements. As a note, our PPA contracts are also referred to as ESA (“Energy Service Agreement”) contracts.

Contracting and Payment Schedule

Our EPC contract with GEC will closely follow the execution of the PPA contracts with the District.

The proposed EPC payment schedule based on our agreement is below. ForeFront is amenable to negotiating the schedule of values below within the EPC agreement with GEC, as well as if a different list of items or a monthly progress billing scheme is desired. The EPC General Terms and Conditions as well as the Special Conditions are being shared in Exhibit 4 and 5.

Community Engagement, Working with Our Neighbors

ForeFront Power takes its company values seriously – key among these values are social responsibility and stewardship. As one means of living out these values, the company has created a Community Investment program designed to uplift communities where we live and where we build.

Where We Live: At the corporate level, ForeFront Power contributes time and money toward causes that both align with the company mission and that employees care about. This includes paid time off for employees to volunteer as well as corporate-level donations and employee donation matching, to organizations that have included:

- National Parks Conservation Association
- The Footprint Project
- Fresno Fire Chief Foundation
- Movember
- Susan G Komen Walk Breast Cancer

Where We Build: A fundamental part of how we do business includes giving back to communities where our projects are located. Considering insights and feedback from our customers, we engage with causes and organizations delivering on-the-ground impact. These causes and organizations often fall in one or more of the below categories:

- **Workforce development** – Ensuring a flourishing, diverse workforce for today and tomorrow requires access to education, training, and other skills-building opportunities. We often contribute toward job training programs, and other career development initiatives, particularly to those that display a strong commitment to diversity, equity, inclusion, and justice (DEIJ) initiatives.
- **STEM Education** – To prepare the clean energy and transportation workforce of tomorrow, we invest in educational causes, particularly to those related to energy, transportation, or STEM more broadly. We also favor causes that display a strong commitment to DEIJ initiatives.
- **Meeting basic needs** – Once basic needs are met, people are better able to focus on building a future for themselves, their families, and their communities. In this vein, we often partner on holiday food drives or other causes that meet basic needs in local communities, and we particularly focus on those that ensure people of *all backgrounds* have a chance to build the life they dream of.
- **Disaster relief** – Disasters can impact any of our communities, and recovery often requires “all hands on deck.” Building is a passion of ours at ForeFront Power, and when a local community we’re connected to has a need to rebuild, we’d like to be there -- whether through employee volunteering, donations of goods, or monetary contributions.

Warranty, Insurance & Performance Guarantee

Equipment Selection Approach & Warranties

In today's highly competitive solar market, reputation is everything. We stand by ours as a provider of premium solar systems with a neutral technology approach.

Our procurement strategy is carefully curated and has been market-tested by our Development and Engineering teams for over a decade. We work with only "Tier 1" equipment suppliers, which means the most bankable products from the most reputable companies with industry-leading warranty protection. **Our procurement philosophy is "highest quality for best value."** Our competitors will offer premium equipment at premium costs, but because of the breadth and depth of our vendor relationships, we can assemble premium systems at discount prices.

When considering suppliers, we look for:

A reputable brand with track of successful projects in the market

Bankable modules and energy storage systems from manufacturers that have a healthy balance sheet

Excellence in efficiency and performance. As we are the owner and operator of the system, we are incentivized to keep the system running at maximum capacity without any needless equipment malfunctions

The best warranties to ensure we—as the owner—and our partners are protected. In the case that a partner wishes to exercise its purchase option for the system, the warranties pass through in the purchase.

Suppliers with which we have strong relationships and whose products we know intimately

Since all operations, maintenance, and repairs are the responsibility of ForeFront Power under our Energy Services Agreement (ESA), it's our responsibility to fix any equipment issues that may or may not be covered by the manufacturer's warranties. We can offer the most competitive pricing to the District by using standard manufacturer warranties on equipment and bearing any risk of project performance in-house.

If the District were to purchase the system under the terms of the ESA and take ownership, all system warranties would be passed through to the District.

Project Guarantees

Predicted vs Actual Energy Production

All solar photovoltaic installations owned or managed by ForeFront Power must have remote real-time monitoring capabilities through a Data Acquisition System (DAS). We partner with Also Energy as our DAS provider.

Also is a cloud-based software that aggregates, organizes, and analyzes the performance of our client's solar projects. This product will provide not only monitoring information to us, so we can access, manage, and identify the causes of a solar system's failure to meet performance expectations, but also gives the customer the ability to verify and validate the performance of their projects on a site-by-site case.

With this approach, the customer has the guarantee that their interests are aligned with the duration of the ESA contract and does not need to worry about any replacement of parts or any other inconvenient that might occur.

The customer will also have a single point of contact within our asset management team that the customer personnel can call at any time with questions or needs.

Please see below an example of system performance for Huntley School District – a sample of what the kiosk display looks like for Huntley can be found in Exhibit 10.

Performance Guarantee

ForeFront Power's proposal includes our best-in-class, **90% performance guarantee with 2-year true-up for solar**. Thus, if the solar fails to produce the promised kWh in any given year, we compensate the district for the kWh you had to purchase from your utility. Please refer to our Minimum Guaranteed Output Language in the Special Conditions sections in Exhibit 6. ForeFront Power Contract Draft.

Operations and Maintenance

ForeFront Power has its own in-house asset management team, which means you work with one partner—us—for the entire lifetime of the project from design to development, to construction, and to operation. ForeFront Power’s Development, Engineering, and Asset Management teams developed high-quality standards for Operations and Maintenance to ensure our systems perform as planned. The tables on the following pages outline the services that can be expected over the life of the agreement.

The U.S. Department of Energy’s National Renewable Energy Laboratory has produced research that singles out the most robust operations and maintenance programs, which we use in the design, engineering, and construction of our systems. ForeFront Power centers system performance through all stages of our projects. **ForeFront Power’s operating portfolio has a performance index of greater than 99 percent (measured energy versus modeled energy).**

ForeFront Power O&M Approach and Monitoring

Our asset management and operations and maintenance (O&M) approaches are outlined below. ‘Operator’ refers to ForeFront Power’s Asset Management team.

Supplemental Information

Incentives and Risks

Investment Tax Credit:

The reconciliation bill (the One Big Beautiful Bill Act – OBBBA) that was signed by President Trump on July 4th, 2025, currently has the ITC phasing out after 2027 – and has strict requirements for projects to be able to claim it in the coming years. The two requirements currently affecting any future signed projects with our customers include the start of construction requirement 12 months after bill enactment (July 4th, 2026), and the Placed in-Service (PIS) requirement, which requires a project to be placed in service four (4) years after the project commences construction.

At ForeFront Power we have been preparing a safe harbor strategy that would allow us to purchase modules to meet the start of construction requirements and ensure this project is able to capture the full ITC available to these projects, as long as the District is committed to move forward with us as the project developer by the fall. Our current schedule for the sites varies by system type and size, with the target being that all of the portfolio will be online by 2027 at the latest, meeting the four-year PIS requirement.

Currently, the biggest risk to our safe harbor strategy is the Executive Order issued by President Trump on July 7th, 2025 which requires the Treasury to amend guidance on safe harboring within 45 days of the bill enactment. The effective date on when that guidance will be issued is expected to be August 16th. We are following this closely with our tax counsel, and any implications that may arise for this portfolio and others. We expect to be in communication with GEC and Belden Energy to provide updates on this matter and how it affects our pricing, if at all.

Energy Community ITC adder:

Under the IRA, some sites qualify for an Energy Community (EC) Adder to the ITC of 10%. Recent guidance from the Treasury released June 24th, 2025, has unveiled that this site would potentially meet the criteria to allow for a 10% ITC adder.

The criteria to determine an eligible Energy Community includes:

- Since 2009, the MSA exceeded 0.17% fossil fuel employment at least once.
- Has an unemployment rate at or above the national average for the previous year?

The site qualifies as an energy community based on the above requirements. The unemployment rate has exceeded the national average for 5 consecutive years. As a result, as long as the IRA qualifications remain unchanged and available, this site is likely to be awarded a bonus and receive an additional 10% ITC to the 30% base.

Our pricing will still be valid, assuming the qualifications for the energy community adder still exist and/or do not materially change by the time construction starts on this project.

Domestic Content ITC adder:

The domestic content adder under the Inflation Reduction Act (IRA) provides an additional financial incentive for renewable energy projects, including solar, to use domestically produced materials and components. Specifically, it offers a bonus of 10% to the investment tax credit (ITC) for projects that meet certain domestic content requirements. To qualify, a specified percentage of the total cost of the project must be attributed to domestic-made products, such as solar modules, inverters, and other critical components.

We have provided an alternative design and price assuming we will have domestic content hardware (modules) by the time of construction start of this project. Current Senate language includes a 45% US made requirement for projects to qualify for this adder.

Current risks with domestic manufacturing include:

- Potential supply constraints and variability in product availability. The bankability of domestic suppliers varies, with some facing financial instability or production capacity limitations that could jeopardize project timelines and performance guarantees. ForeFront Power is currently undertaking a thorough due diligence and risk assessment of the expected OEMs we are considering.

ForeFront Power undertook a sourcing initiative in 2022 for photovoltaic (PV) modules, resulting in de-risked supply for commodity products, including an opening of supply from US domestic sources. We have access to domestic supply today and are in the final stages of securing these modules for select projects for 2025 and forward procuring for future years, contingent on creation of new capacity and expansion of current capacity by certain module manufacturers. ForeFront Power is working with inverter (SolarEdge) and racking vendors (PanelClaw) on an alternative approach for when domestic PV modules cannot realistically be used.

Our pricing will still be valid, assuming the qualifications for the domestic content adder still exist and/or do not materially change by the time construction starts on this project.

ForeFront Power's Approvals process

The following is required before ForeFront Power will be able to approve a project to start construction (issue formal Notice to Proceed) on a project:

- Project has received all permit approvals by AHJ (including building and conditional permits where appropriate) and has been fully de-risked.
- Interconnection approval from ComEd.
- Submission (and expected award) of Illinois Shines REC incentive to the IPA/ICC.
- Negotiated final contract forms and terms with GEC.
- Project economics still have this project as a viable investment for ForeFront Power. This includes but is not limited to any potential changes to ITC levels, or the Illinois Shines program expected incentive levels.

Once these items are finalized, we expect a 2 -3-week turnaround for final approvals from our Executive Committee.

Mark Altmayer, Huntley School District

Chief Financial Officer, Treasurer

The system was installed in September of 2020

Huntley School District is one of the largest school solar users in the state with more than 6 megawatts of production.

Staff at the school district were included in all aspects of the installation.

Forefront has maintained the same power-purchase rate since installing the system.

They have exceeded expectations for each of the past 4-5 years. They are still performing above expectations.

At that time, the school district received 4-5 PPA responses to the RFP. Forefront's response was the most detailed and thorough.

"Forefront knew more about solar than all the other respondents combined. no question, I give them a glowing review. They are our energy partner"-Mark

David Zaremba, Mundelein School District

Director of Facilities

The system was installed in the summer of 2022.

Mundelein School District project size is 600 kilowatts, like the Family Recreation Center project.

"Our CPA is happy; the system saves about 11% per month. The system has been performing well".

-Mundelein School District is in a lease-to-purchase agreement for 25 years.

"Forefront keeps a good watch on the system, they come out for site visits, monitor the system, and change parts as needed"-David

MEETING DATE: JULY 21, 2025

STAFF REVIEW:

RECOMMENDED FOR BOARD ACTION: Executive Director, Laure Kosey

ITEM HISTORY (PREVIOUS PARK DISTRICT BOARD REVIEWS, ACTIONS RELATED TO THIS ITEM, COMMITTEE ACTION, OTHER PERTINENT HISTORY):

During the closed session on May 19, 2025, the Board of Commissioners reached a majority consensus to implement a formal policy addressing Commissioner absenteeism and reinforcing expectations regarding attendance and service. The Board directed District Attorney Steve Adams to draft the corresponding ordinance.

ITEM COMMENTARY (BACKGROUND, DISCUSSION, KEY POINTS, RECOMMENDATIONS):

Ordinance 25-0722 sets a threshold of four missed Board meetings within any 12-month period as grounds for declaring a Commissioner's seat vacant. It also establishes a formal process for making such a determination.

ACTION PROPOSED:

A Motion (and a Second) to approve Ordinance 25-0722: An Ordinance Providing for Declaration of Vacancy on The Board of Park Commissioners.

RECITALS

WHEREAS, the Oak Brook Park District ("District") is an Illinois park district organized and operating under and pursuant to the provisions of the Illinois Park District Code (70 ILCS 1205/1-1 *et seq.*) ("Code") and all laws amendatory thereof and supplementary thereto;

WHEREAS, the District is governed by five (5) individuals elected or appointed from time to time and comprising the Board of Park Commissioners ("Board") of the District;

WHEREAS, the Board is empowered to pass all necessary ordinances, rules and regulations for the proper management and conduct of the business of the Board and District and to manage and control the officers and property of the District;

WHEREAS, the members of the Board are elected to serve and represent the public, and an integral part of such service is attendance at the regular monthly meetings of the Board and at such special or other meetings of the Board, as may be called to order from time to time;

WHEREAS, the failure of a member of the Board ("Commissioner") to attend the meetings of the Board deprives the electorate of the District of its full representation and may result in the inability of the Board to take necessary action on a matter before it;

WHEREAS, Article 2, Section 25 of the Code provides that whenever any Commissioner neglects to attend the meetings of the Board for the length of time that the Board fixes by ordinance, such Commissioner's office may be declared vacant (70 ILCS 1205/2-25); and

WHEREAS, the Board wishes to (1) fix the length of time that a Commissioner may fail to attend meetings in order for such Commissioner's office to be declared vacant and (2) to provide a procedure pursuant to which a declaration of vacancy as aforesaid may be rendered.

NOW, THEREFORE, IT IS HEREBY ORDAINED by the Board of Park Commissioners of the Oak Brook Park District as follows:

SECTION 1. INCORPORATION OF RECITALS. That the recitals hereinabove set forth are true and correct and are incorporated into the text of this Ordinance to the same extent as if each of such recitals had been set forth herein in its entirety.

SECTION 2. REPEATED FAILURE TO ATTEND MEETINGS. The Board may declare vacant the office of any Commissioner who fails to attend four (4) or more of all duly called and held regular and special meetings of the Board within any twelve (12) month period after the effective date of this Ordinance. A Commissioner will be deemed present at a regular Board meeting or committee of the whole meeting if they attend in person or by audio or video conference in accordance with applicable Board policy (Section 1.1.1(G) of the Administrative Policies and Procedures Manual, dated July 21, 2025). Prior to declaring the office vacant under this Ordinance, the Board shall convene a meeting closed to the public for the purpose of conducting a hearing to consider whether the office of such Commissioner shall be declared vacant ("Hearing"), pursuant to 70 ILCS 1205/2-25 and 5 ILCS 120/2 (c)(3).

SECTION 3. HEARING.

- (a) At the Hearing, the Board shall determine whether the Commissioner failed to attend four (4) or more of all duly called and held regular and special meetings of the Board within any twelve (12) month period. The Commissioner whose office is in question shall be given at least fourteen (14) days prior written notice of the Hearing ("Hearing Notice") by the President of the Board.
- (b) The Hearing Notice shall include notice of the possible declaration of vacancy of the Commissioner's seat on the Board, the date, time and location of the Hearing and a listing of the dates of meetings that the Commissioner has allegedly failed to attend in accordance with this Ordinance.
- (c) The Commissioner whose seat may be declared vacant shall have the right to be present at and to participate in the Hearing. The Commissioner shall also have the right to be represented by counsel (at the subject Commissioner's expense) prior to, during, and after the Hearing.
- (d) During the Hearing, the Board shall provide the Commissioner whose seat is being challenged with certified copies of the minutes of the meetings which the Commissioner is alleged to have missed, and such certified copies shall be a rebuttable presumption that the Commissioner failed to attend each meeting for which the minutes reflect the Commissioner's absence.
- (e) At the Hearing, the Commissioner whose seat on the Board may be declared vacant may present oral and/or written evidence and/or present any witnesses to establish such Commissioner's attendance at any meeting where the aforesaid minutes reflect such Commissioner's absence.
- (f) The President of the Board shall preside at the Hearing and may be assisted by legal counsel for the District.
- (g) No final action shall be taken at the Hearing.

SECTION 4. DECLARATION OF VACANCY. At any time after the adjournment of the Hearing, the Board shall, at a meeting open to the public, make finding(s) of fact regarding the number of meetings missed by the Commissioner during any period of twelve

(12) months and if such finding indicates that the Commissioner failed to attend four (4) or more of such meetings, the Board may declare the office of said Commissioner vacant by the affirmative roll call vote of majority of the Board (and not less than three (3) members of the Board), whereupon said office shall be vacant and may be filled by the remaining members of the Board in accordance with the provisions of Section 2-25 of the Code (70 ILCS 1205/2-25).

SECTION 5. INVALIDITY. If any section, subsection, paragraph, sentence, clause or phrase of this Ordinance or any part thereof is for any reason held to be unlawful or invalid or ineffective by any court of competent jurisdiction, such decision shall not affect the validity or effectiveness of the remaining portions of this Ordinance, or any part thereof.

AGENDA ITEM – HISTORY/COMMENTARY

ITEM TITLE: SECTION 4 – ADMINISTRATIVE POLICIES AND PROCEDURES MANUAL, PART I

AGENDA NO.: 7 F

MEETING DATE: JULY 21, 2025

STAFF REVIEW: Director of Recreation and Communications, Robert Pechous:

RECOMMENDED FOR BOARD ACTION:

Executive Director, Laure Kosey:

ITEM HISTORY (PREVIOUS PARK DISTRICT BOARD REVIEWS, ACTIONS RELATED TO THIS ITEM, COMMITTEE ACTION, OTHER PERTINENT HISTORY):

The Board of Commissioners last approved the Administrative Policies and Procedures Manual on April 19, 2021.

ITEM COMMENTARY (BACKGROUND, DISCUSSION, KEY POINTS, RECOMMENDATIONS):

The Manual will be presented to the Board in sections. The revisions include the addition of new policies, clarification of existing policies, and changes to comply with federal and state laws.

ACTION PROPOSED:

A Motion (and a Second) to approve Section 4 of the Administrative Policies and Procedures Manual, Part I.

4.1 Accounts Payable Policy and Procedures

Vendor Setup

New Vendors must provide specific information before any payments can be processed. The employee who is initiating the transaction must request that the vendor complete a "Vendor Information Request" form, a properly completed W-9, and a Certificate of Insurance (if the vendor is providing services on-site). The completed forms shall be given to the Finance Manager. The Certificate of Insurance will be forwarded to the Administrative Services Specialist.

Formatted: Font: Bold

In addition, it is the employee's responsibility to inform the vendor of the District's Tax-Exempt Status and to provide the Vendor with a current Tax Exemption Certificate to ensure that no sales tax is included on the invoice.

Invoice Approval

Vendors must submit an invoice to the Finance Department, preferably by email to (invoices@obparks.org). An invoice is an official request for payment from a vendor. It must include a date, and a specific description of the items received, or services rendered (including quantities). It should also clearly state who has provided these goods or services, the address that the payment should be remitted to, and show the Oak Brook Park District as the recipient of these goods or services.

Formatted: Font: Bold

A quote, statement, order confirmation, packing list, receipt, delivery ticket, etc. generally does not contain all of the required information, and cannot be used to generate a payment.

In addition, for purchases of \$1,000 or greater, there must also be an approved Purchase Order in the system before any invoice can be processed.

There may be occasions where a check is required but no invoice exists. In these instances, the requestor shall complete an 'Accounts Payable Voucher' (available from the Finance Manager), have it approved by their department head, and attach supporting documentation before submitting it to the Finance Manager.

All payments shall be processed within our BS&A Accounts Payable software, which requires several levels of approval, whether by ACH, EFT, petty cash, or paper check. Vendor invoices for goods and/or services provided to the Park District shall be approved within 30 days after receipt of the invoice.

~~Payment shall be made within 30 days of invoice approval. Vendor terms that are outside the Net 30 term may require a manual an interim check or electronic payment in order to eliminate late fees. Manual Interim checks will be processed on Thursdays as needed. All payments will be summarized in the monthly Warrant Report and be approved by the board.~~

Formatted: Font: Bold

~~The Executive Director, Chief Financial Officer and the Board Treasurer have the authority to sign Accounts Payable checks as part of the issuance of the monthly warrant. A single signature is required of checks from \$0.00 to \$49,999.99. Checks greater than \$510,000.00 require 2 signatures. Petty Cash/Cash Exchange Box

~~I am not sure if this section belongs in this policy. Would it be more appropriate to include in Section 4.1 Accounts Payable Policy and include some language about the daily reimbursement limit to employees, the completion of a petty cash slip/form along with supporting receipts and required supervisor approval. We can still keep this language below about the reconciliation of the petty cash funds~~

reimburse employees for certain minor expenses such as mileage costs, out-of-pocket supplies, etc. A limit of \$50 per request is allowed. Larger reimbursements will be provided via check. To receive a petty cash reimbursement, employees must complete a petty cash slip, include the appropriate receipts or other supporting documentation, and have the slip signed by their supervisor. The Finance Manager or CFO are authorized to disburse petty cash.

All existing petty cash funds shall, at a minimum, be counted, reconciled and replenished on a quarterly basis. This will ensure that the underlying expenditures are recorded in the general ledger on a timely basis. Any overage/shortage of the petty cash fund should be reported to the Finance Manager or Chief Financial Officer.

4.2 Bond Rating Policy

The purpose of the District's Bond Rating Policy is to provide guidance to the Executive Director if and when the District wishes to proceed with obtaining a bond rating. The decision to seek a bond rating shall be based on input from the Chief Financial Officer in addition to the District's Financial Advisors as to what is in the best interest of the District.

Bond ratings are obtained from one of the following agencies: Standard and Poor's, Moody's and Fitch. The objective of the rating agency is to assign a credit rating for a municipal bond. Article C: In accordance with the Prevailing Wage Act, the District must inform the Contractor if the Work required by this Agreement is subject to the Prevailing Wage Act requirements including but not limited to, all wage requirements and notice and record keeping duties.

“A contractor or subcontractor is required to pay not less than the prevailing wage to **all laborers, workers, and mechanics engaged in the construction or demolition of public works**. Construction means all work performed on public works by laborers, workers or mechanics and includes **maintenance** work.”

***Staff must check “Yes” or “No” if the project is on the Public Work under Article C of the Rider to the Agreement. 4.7 —Capital Asset Policy and Procedure

Purpose

The purpose of this Capital Asset policy and procedure ("policy") is to provide control and accountability over capital assets, and to gather and maintain information needed for the preparation of financial statements. The Oak Brook Park District ~~capital asset~~ policy is herein established to safeguard assets and to ~~insure~~ensure compliance with Governmental Accounting Standards Board (GASB) Statement No. 34 ("GASB 34") for governmental financial reporting.

Formatted: Right: 0.08"

Overview

This policy is herein established to safeguard and address the Oak Brook Park District's investment in Property, Plant and Equipment which comprises a significant resource. This policy is meant to ensure compliance with various accounting and financial reporting standards including GASB 34~~Generally Accepted Accounting Principles (GAAP)~~, and Governmental Accounting, Auditing, and Financial Reporting (GAAFR).

Further, this policy is meant to reflect the Oak Brook Park District's desire to meet the reporting requirements set forth in GASB 34~~the Governmental Accounting Standards Board (GASB) Statement No.~~

34. Specifically, ~~the GASB Statement No.~~ 34 states that governments should provide additional disclosures in their summary of significant accounting policies including the policy for capitalizing assets and for estimating the useful lives of those assets which ~~is~~are used to calculate the depreciation expense. GASB 34 ~~The Statement~~ also requires disclosure of major classes of assets, beginning and end-of-year balances, capital acquisition, sales/dispositions, and current-period depreciation expense. The District shall utilize appropriate available software ~~currently utilizes AssetMaxx~~ to inventory and monitor any and all additions and deletions of capital assets to Property, Plant and Equipment Inventory.

INVENTORY, VALUING, CAPITALIZING, AND DEPRECIATION

Inventory

Responsibility for control of capital assets will rest with the specific department wherein the asset is located. The Finance Department shall ensure that such control is maintained by establishing an inclusive capital asset inventory schedule. Asset purchases, which fall below the capitalization threshold, will not be included in the capital asset inventory.

~~Each Department will be responsible for control of capital assets for their department. The Department Director/Manager shall ensure that such control is maintained by establishing a capital asset inventory schedule.~~ The inclusive capital asset inventory schedule will include the

following for each asset:

- Asset Description – A description of the asset (serial #, model#)
- Asset Classification (Land and Land Improvements, Building and Building Improvements, Vehicles, Machinery and Equipment, and Infrastructure Assets)
- Department name and physical location of asset
- Date asset was purchased/acquired and or disposed

- Method of acquisition (purchased or donated)
- Estimated useful life

This list will be maintained, updated, and reviewed by the Finance Department on an ongoing basis.

Valuing Capital Assets

Capital assets should be valued at cost or historical costs, plus those costs necessary to place the asset in its location (i.e. freight, installation charges.) In the absence of historical cost information, ~~a realistic estimate~~ a fair market value will be used. Donated assets will be recorded at the estimated current fair market value.

Capitalizing

When to Capitalize Assets:

Assets are capitalized at the time of acquisition or when fully readied and placed into operation for its intended use. To be considered a capital asset for financial reporting purposes an item must be at or above the capitalization threshold equal to \$15,000.00 and have a useful life of at least one year.

Assets not Capitalized:

Capital assets below the capitalization threshold of \$15,000.00 on a unit basis but warranting "control" shall be inventoried at the department level and an appropriate list will be maintained.

Capital Assets should be capitalized if they meet the following criteria:

- Tangible
- Useful life of more than one year (benefit more than a single fiscal

period) Capital Assets include the following major classes of assets:

Oak Brook Park District
Administrative Policies and Procedures

Policy: 4.7

Land and Land Improvements – Capitalized value is to include the purchases price plus costs such as legal fees and filing fees; improvements such as parking lots, fences, pedestrian bridges, landscaping.

Building and Building Improvements – Costs include purchase price plus costs such as legal fees and filing fees; improvements include structures and all other property permanently attached to, or an integral part of the structure. These costs include re-roofing, electrical/plumbing, carpet replacement, and HVAC.

Vehicles – Costs include purchase price plus costs such as title & registration and the cost of equipment and modifications necessary to ready the vehicle for its initial intended use.

Machinery and Equipment – Assets included in this category are heavy equipment, traffic equipment, generators, office ~~equipment; equipment~~, phone system, fitness equipment, and furniture~~kitchen equipment~~.

2

Infrastructure Assets – Infrastructure Assets are long-lived capital assets that are stationary in nature and normally can be preserved for a significantly greater number of years than most capital assets.

Depreciation

Depreciation is computed on a straight-line method with depreciation computed on a monthly basis from the month of acquisition. Additions and improvements will only be capitalized if the cost either enhances the asset's functionality or extends the asset's useful life.

Projects in process will be considered Construction-in-Progress until completed. Once the entire project is completed it will be added to the District's ~~capital~~fixed asset inventory using the applicable AssetMaxx ~~application or other suitable~~ software, and a useful life will be assigned and depreciation computed.

4.8 Fund Balance/Net Position Policy

PURPOSE

A Fund Balance/Net Position Policy establishes a minimum level that the projected end-of-year fund balance/net position must meet, as a result of the constraints imposed upon the resources reported by the governmental and proprietary funds. This policy is being established to provide financial stability, cash flow for operations, and the assurance that the District will be able to respond to emergencies with fiscal strength. More detailed fund balance financial reporting and the increased disclosures will aid the user of the financial statements in understanding the availability of resources.

It is the District's philosophy to support long-term financial strategies, where fiscal sustainability is its first priority, while also building funds for future growth. It is essential to maintain adequate levels of fund balance/net position to mitigate current and future risks, ~~and~~ volatility with ~~to~~ ensure tax rates. Fund balance/net position levels are also a crucial consideration in long-term financial planning. Credit rating agencies carefully monitor levels of fund balance/net position and any unassigned fund balance in the General Fund to evaluate the District's continued creditworthiness.

DEFINITIONS

Governmental Funds

The fund balance will be composed of three primary categories:

- 1) Nonspendable Fund Balance – portion of ~~at the~~ Governmental Fund's' fund balance that is not available to be spent, either in the short-term or long-term, or because of legal restrictions (e.g., inventories, prepaid items, land held for resale and endowments).
- 2) Restricted Fund Balance – portion of a Governmental Fund's' fund balance that is subject to external enforceable legal restrictions (e.g., grantor, contributor and property tax levies).
- 3) Unrestricted Fund Balance – is comprised ~~made up~~ of three components:
 - A) Committed Fund Balance – the portion of ~~at the~~ Governmental Fund's' fund balance with self-imposed constraints or limitations that have been placed at the highest level of decision making through formal Board action. The same action is required to remove the commitment of a fund balance.

Oak Brook Park District
Administrative Policies and Procedures

Policy: 4.8

B) Assigned Fund Balance – the portion of ~~at~~the Governmental Funds’ fund balance for which an intended use of resources has been denoted, but with no formal Board action.

C) Unassigned Fund Balance – available expendable financial resources in the Governmental Funds that are not the object of any tentative management plan.

Some funds are funded by a variety of resources, including both restricted and unrestricted (committed, assigned and unassigned) sources. The District assumes that the order of spending the Governmental fund balance is as follows: restricted, committed, assigned, unassigned.

Proprietary Funds

Proprietary funds include enterprise and internal service funds. The net position will be composed of three primary categories:

- 1) Invested in Capital Assets, Net of Related Debt – portion of a proprietary fund’s net position that reflects the fund’s net investment in capital assets less any amount of outstanding debt related to the purchase/acquisition of said capital assets. Related debt, for this purpose, includes the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of capital assets of the District.
- 2) Restricted Net Position– portion of a proprietary fund’s net Position that are subject to external enforceable legal restrictions (e.g., grantor, contributor and bond covenants).
- 3) Unrestricted Net Position– portion of a proprietary fund’s net position that is neither restricted nor invested in capital assets (net of related debt).

AUTHORITY

Governmental Funds

Committed Fund Balance – A self-imposed constraint on spending the fund balance must be approved by ordinance or resolution of the Board. Any modifications or removal of the self-imposed constraint must use the same action used to commit the fund balance. Formal action to commit fund balance must occur before the end of the fiscal year. The dollar amount of the commitment can be determined after year end.

Assigned Fund Balance – A self-imposed constraint on spending the fund balance based on the District's intent to use fund balance for a specific purpose. The authority may be delegated to members of the management team by the Board.

MINIMUM UNRESTRICTED NET POSITION LEVELS

Proprietary Funds

Recreational Facilities (Enterprise) Fund

The focus of enterprise fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. Enterprise funds are required to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) establishes fees and charges based on a pricing policy designed to recover similar costs.

~~Funding~~Financing – User fees, debt financing, ~~or investment earnings, grants, and sponsorships.~~are used to finance operations, capital outlay and improvements, and debt service retirements.

MINIMUM UNRESTRICTED NET POSITION LEVELS - CONTINUED

Net Position— Considered invested in capital assets net of related debt (for amounts capitalized as capital assets, less the outstanding debt related to the acquisition of said assets). Restricted net position relates to bond covenant reserves as outlined in the bond ordinance. Unrestricted net position targets should represent no less than three months of operating expenses (excluding debt service and capitalized asset expenses).

OTHER CONSIDERATIONS

In establishing the above policies for unrestricted fund balance/net position levels, the District has considered the following factors:

- The predictability of the District's revenues and the volatility of its expenditures (i.e., higher levels of unrestricted fund balance may be needed if significant revenue sources are subject to unpredictable fluctuations or if operating expenditures are highly volatile)
- The District's perceived exposure to significant one-time outlays (e.g., disasters, immediate capital needs, state budget cuts)
- The potential drain upon General Fund resources from other funds as well as the availability of resources in other funds (i.e., deficits in other funds may require a higher level of unrestricted fund balance be maintained in the General Fund, just as, the availability of resources in other funds may reduce the amount of unrestricted fund balance needed in the General Fund)
- Liquidity (i.e., a disparity between when financial resources actually become available to make payments and the average maturity of related liabilities may require that a higher level of resources be maintained)
- Commitments and assignments (i.e., governments may wish to maintain higher levels of unrestricted fund balance to compensate for any portion of unrestricted fund balance already committed or assigned by the government for a specific purpose)

If any of the above factors change, the District should readdress current unrestricted fund balance/net position levels to ensure amounts are appropriate.

4.12 Purchasing Policy

Purpose

This policy and procedure will define guidelines for the purchase of necessary goods and services for the Park District.

GENERAL GUIDELINES

- A. Purchases totaling \$999.99 or less will not require the issuance of a purchase order, with the exception of any purchases to be carried-out with a District issued procurement card ("P-Card"), where a purchase order must be created regardless of purchase amount, yet the purchase order need not be created until after the monthly statement is received." For further information specific to the District's P-Card program, refer to Section 4.11 Procurement Card Policy, which is incorporated into this Purchasing Policy, by reference.
- B. Purchases of \$1,000.00 or more will require the creation of a purchase requisition and subsequent issuance of a purchase order prior to the procurement of the goods and/or services. Purchases \$2,000 or greater will require three quotes. A purchase requisition is a written request to purchase goods and services and requires the appropriate approvals before a corresponding purchase order can be issued. A purchase order authorizes the actual purchase of goods and/or services on behalf of the district.
- C. Purchases in excess of \$30,000 are subject to additional procedures which are set forth in Section 4.4 Contracts – Policy for the Review, Approval and Execution of Contracts, which is incorporated into this Purchasing Policy, by reference. The District may go out to bid on contracts less than \$30,000 when reasonable.
- D. Purchases that are identified as "emergency" by the Executive Director are subject to additional procedures which are set forth in Section 4.6 Emergency Expenditures Policy, which is incorporated into this Purchasing Policy, by reference.
- E. The appropriate vendor(s) may need to be contacted to obtain pricing and other pertinent information so the employee ("requester") may create the corresponding purchase requisition using the District's purchase order software module ("P.O. module").
- F. Employee access to the P.O. module may only be granted by the Chief Financial Officer or Finance Manager in response to a written request from the appropriate supervisor.

- G. Intentionally dividing a larger purchase into a series of smaller charges in an attempt to avoid obtaining the required authorizations may result in disciplinary action or termination of employment.

PROCEDURES FOR THE CREATION OF A PURCHASE REQUISITION/ORDER

- A. Once a requester has been granted access to the District's P.O. module, ~~he/she/they~~ may create a purchase requisition as follows:
- a. Requester shall log into the P.O. module and select "add" located in the Data Entry-Purchase Order Entry menu;
 - b. A purchase requisition form will appear on the computer screen, containing numerous fields that will need to be populated with information such as vendor number, name of approving department, posting date, quantities, pricing, descriptions of the goods and services being requested, as well as the appropriate general ledger accounts. The P.O. module will automatically alert the requester if the requested purchase will result in an "over budget" state to any of the general ledger accounts being used. Once the purchase requisition has been finalized and saved, the corresponding supervisor will receive an electronic notice that the requisition is awaiting ~~their his/her~~ review and approval.
- B. The supervisor shall review the purchase requisition for accuracy and completeness and may approve it without further modifications, modify it before approving it, permanently cancel it, or deny it and return it to the requester for additional modifications. If approved by the supervisor, the Chief Financial Officer (C.F.O.) will receive an electronic notice that the requisition is awaiting ~~his/her/their~~ review and approval.
- C. The C.F.O. shall review the purchase requisition for accuracy and completeness and may approve it without further modifications, modify it before approving it, permanently cancel it, or deny it and return it to either the supervisor or requester for additional modifications. If the requisition is approved by the C.F.O, the P.O. module will record the appropriate encumbrances and convert the purchase requisition into a purchase order. An email notice will subsequently be sent to the requester alerting ~~him/her/them~~ that a purchase order has been created, which provides confirmation that the requested purchase of goods and/or services has been approved.
- D. When warranted, the requester shall provide the vendor or service provider with a copy of the purchase order document which contains the details of the approved purchase, as well as language concerning the district's terms and conditions and the Illinois Prevailing Wage Act. ~~See Exhibit "A" for a sample of a completed purchase order.~~

4.14 Payroll Processing and Fraud Control Procedures

Payroll is processed on a biweekly basis by the ~~Human Resource~~Finance Manager. All employee time must be entered into the District's electronic timekeeping system (TimePro) and approved by the employee's direct supervisor. Supervisors must approve payroll by 12:00 noon on the Tuesday of a payroll week, unless noted otherwise.

Once all of the time records have been approved, the ~~Human Resource~~Finance Manager reviews the TimePro ~~Hours Worksheet~~ Report for possible errors and consults with supervisors to make corrections as needed. The ~~Human Resource~~Finance Manager uploads the TimePro time records into the BS&A Payroll System and enters necessary pay adjustments in the payroll system. Paystubs are created and emailed (or printed, if requested) to employees who have elected direct deposit. Live checks are created and put in envelopes for employees choosing that mode of payment. The direct deposit file is uploaded into the bank and scheduled for release on the applicable pay date. The ~~Human Resource~~Finance Manager prepares and sends the tax and liability payments via ~~ACH-EFT~~ or live check.

The ~~Human Resource~~Finance Manager is responsible for ~~biweekly~~monthly journal entries, monthly IMRF pension ~~and wage~~ reporting, as well as quarterly and annual tax reporting.

The Chief Financial Officer reviews the Payroll Register prior to the pay date.

Payroll Fraud Control

The following control measures are in place to minimize the possibility of payroll fraud.

Division of Duties

Authorization and recordkeeping over the payroll function are appropriately segregated. New hire, termination, and pay rate changes are initiated by the department supervisor/manager and approved by the department director and Executive Director before being processed by the Human Resource Manager. In addition to the ~~Human Resource~~Finance Manager who regularly processes payroll, the Chief Financial Officer reviews the biweekly Payroll Register prior to each pay date and approves the direct deposit file in the bank. Payroll checks and direct deposit disbursements are drawn on a zero-balance bank account. This bank account is reconciled monthly by the Chief Financial Officer.

Payroll Report Review

The Chief Financial Officer reviews the biweekly Payroll Register as well as periodically inspects the payroll system audit reports. The Chief Financial Officer maintains an Excel schedule that tracks the gross payroll expenditures for each payroll group or department to identify any unusual or unexpected variances in the gross amounts, from one pay period to the next.

Direct Deposit Verification

Direct deposit payment requests are reviewed and verified by the Human Resource Manager. An employee requesting direct deposit of their pay is required to complete a Direct Deposit Authorization Form ~~and attach a voided check~~ or official bank verification listing the employee's name, routing number

Oak Brook Park District
Administrative Policies and Procedures

and account number(s). The Human Resource Manager reviews the paperwork for consistency between the two documents and enters the information into the BS&A Payroll System. Prior to payroll processing, a prenote file is sent through the District's bank to verify the accuracy and active status of the routing and account numbers.

Payroll Check Stock and Electronic Signature

Access to the payroll paper check stock and electronic signature is limited to the Human Resource Manager, Finance Manager, and Chief Financial Officer. The paper check stock is secured in a locked cabinet located in a limited access office. The check authorization signature is secured in the BS&A Payroll System accessible only by password.

Preliminary Budget Work

The Chief Financial Officer (CFO) and Finance Manager are responsible for the preliminary work related to the budget. In ~~December~~ November of each year, finance staff will update the budget calendar. This calendar must include important dates for all aspects of the budget process as well as the legal filing deadlines. At this same time, the CFO and Finance Manager will work on the budget guidelines. These guidelines include guidance on cost increases for the coming year, as well as the percentage fee increase for each program to continue the District's operations.

~~Budget Goals Process~~

~~Staff is required to create budget-related goals each year for each budget area. This process also includes evaluating the outcomes of the previous year's goals. This process usually begins in July (creating the Annual Report) and is reviewed throughout the budget process by the CFO and Executive Director. These goals are to be measurable and should be tied to the District's strategic initiatives and goals and objectives for the District.~~

Budget Document Creation

Each staff member is responsible for entering a majority of their budgets related to the area they oversee. ~~The Finance & the Human Resource Department are~~ department is responsible for entering items including ~~wages~~ insurance, utilities, bank fees, etc. After all information is entered into the District's financial software (BS&A), meetings will be held with department heads, the Executive Director, Deputy Director, and CFO. The Finance Manager and CFO are responsible for compiling all budget information and assembling the tentative budget report. This working budget report will be presented to the board at the budget workshop.

Budget and Appropriation Ordinance

The District completes the budget which is the baseline staff uses when making purchasing decisions in that given year. However, the Park District is subject to the Budget and Appropriation Act under the Park District Code (70 ILCS 1205). This act requires the District to approve a Budget and Appropriation Ordinance (ordinance) within or before the first quarter of each fiscal year. The code also requires the District place the ordinance for public inspection at least 30 days prior to final action by the board. In addition, at least one public hearing is to be conducted as to the ordinance prior to final action by the board. This public hearing normally occurs at the April Board Meeting. As a matter of practice, the District approves the ordinance at the April Regular Board Meeting. This ordinance, once approved by the Board of Commissioners, must be filed with the Cook County Clerk's Office and the DuPage County Clerk's Office no later than the last Tuesday in December. Once filed with the counties, the park district receives written confirmation of such filings which are subsequently filed for safekeeping. In addition, the annual "Total Compensation Disclosure" must be posted on the District's website within 6 business days of the adoption of the budget ordinance.

Final Steps

Oak Brook Park District
Administrative Policies and Procedures

Prior to processing a vendor's ACH payment for the first time, a prenote file is sent through the District's bank to verify the accuracy and active status of the routing and account numbers. If a request is received to change or update a recipient's bank account information, it must be verified directly with the vendor or provider.

The corresponding year of the Capital Improvement Plan will be incorporated into the annual budget as the Capital Budget. Projects slated for subsequent years are approved on a planning basis only.

The District defines a capital project as having an original cost of \$15,000.00 or more, a useful life of 1 year or greater, and results in the creation of a fixed asset or the revitalization of an existing fixed asset.

Funding for the Capital Improvement Plan includes accumulated budget surpluses in the form of fund balances, user fees, grants, and debt proceeds.

4.20 Debt Management Policy

I. PURPOSE AND GOALS

The Oak Brook Park District developed this Debt Management Policy to help ensure the District's creditworthiness and to provide a functional tool for debt management and capital planning. The Oak Brook Park District faces continuing capital infrastructure requirements to meet the increasing needs of its residents. The District limits long-term debt to only those capital improvements that cannot be financed from current revenues. The District does not use long-term debt to fund operating programs.

Consequently, the District needs to anticipate increases in debt levels based upon historical data. With these increases, the effects of decisions regarding the type of issue, method of sale, and payment structure become ever more critical to the District's financial well-being. To help ensure the District's credit worthiness, an established program of managing the District's debt becomes essential.

The purpose of this policy is to provide a functional tool for debt management and capital planning, as well as enhancing the District's reputation for managing its debt in a conservative and prudent manner.

GOALS RELATED TO THE ISSUANCE OF GENERAL OBLIGATION AND REVENUE BOND DEBT

- In following this policy, the District shall pursue the following goals when issuing debt:
- Maintain at least an A2 credit rating for each rated general obligation debt issue.
- Take all practical precautions to avoid any financial decision which will negatively impact current credit ratings on existing or future debt issues.
- Consider market timing.
- Determine the amortization (maturity) schedule which will best fit with the overall debt structure of the District's general obligation debt and related tax levy at the time the new debt is issued. The District may choose to delay principal payments or capitalize interest during project construction. For issuance of revenue bonds, the amortization schedule which will best fit with the overall debt structure of the enterprise fund and its operating cash flow will be considered. Consideration will be given to coordinating the length of the issue with the lives of assets, whenever practicable, while considering repair and replacement costs of those assets to be incurred in future years as an offset to the useful lives, and the related length of time in the payout structure.
- Consider the impact of such new debt on overlapping debt and the financing plans of local governments which overlap, or underlie the District.
- Assess financial alternatives to include new and innovative financing approaches, including, whenever feasible, grants, revolving loans or other state/federal aid.
- Minimize debt interest costs.
- Level or declining debt service shall be employed unless operational matters dictate otherwise, or except to achieve overall level debt service with existing bonds. The District shall be mindful of the potential benefits of bank qualification and will strive to limit its annual issuance of debt to \$10 million or less when such estimated benefits are greater than the benefits of exceeding the bank qualification limit. Should subsequent changes in the law alter this limit, the District policy will be reevaluated.

II. DEBT ISSUANCE IN GENERAL

Authority and Purposes of the Issuance of Debt

A. The laws of the State of Illinois authorize the issuance of debt by the District. The Local Bond Law confers upon park districts the power and authority to contract debt, borrow money, and issue bonds for public improvement projects as defined therein. Under these provisions, the District may contract debt to pay for the cost of acquiring, constructing, reconstructing, improving, extending, enlarging, and equipping such projects or to refund bond.

Types of Debt Issued:

1. **Short-Term. (three years or less)** The District may issue short-term debt to finance the purchase of non-capital equipment having a life exceeding one year or provide increased flexibility in financing programs. The District will have no more than 10% of its outstanding general obligation debt in short term debt.
2. **Long-Term. (more than three years)** The District may issue long-term debt which may include, but not be limited to, general obligation bonds, certificates of participation, capital appreciation bonds, special assessment bonds, self-liquidating bonds, double barreled bonds, and municipal bonds. The District may also enter into long-term leases for public facilities, property, and equipment with a useful life greater than one year.

B. Capital Improvement Program

The Capital Improvement Program (CIP), prepared by staff, and must be approved by the Board, and shall determine the District's capital needs. The program shall be a ten-year plan for the acquisition, development and/or improvement of the District's capital assets. Projects included in the CIP shall be prioritized; and the means for financing each shall be identified. The first year of the program shall be the Capital Budget. If the current resources are insufficient to meet the needs identified in the Capital Budget, the Board may consider incurring debt to fund the shortfall. The Board, upon advice from a District's municipal advisor, may also consider funding multiple years of the Capital Improvement Program by incurring debt. The CIP should be revised and supplemented each year in keeping with the District's policies on debt management.

C. Structure of Debt Issues

The duration of a debt issue shall not exceed the economic or useful life of the improvement or asset that the issue is financing. The District shall design the financing schedule and repayment of debt so as to take best advantage of market conditions and, as practical, to recapture or maximize its credit capacity for future use, and moderate the impact to the taxpayer. In keeping with the stated goals of this debt management policy, the District shall structure each general obligation issue (except refunding issues) to comply with the rapidity of debt repayment provisions in Section III. E. 1. (see below).

Oak Brook Park District
Administrative Policies and Procedures

D. Sale of Securities

All debt issues should be sold through a competitive bidding process based upon the lowest offered True Interest Cost (TIC), unless Board deems a negotiated sale the most advantageous to the District.

E. Credit Enhancements

The District may enter into agreements with commercial banks or other financial entities for the purpose of acquiring letters of credit, municipal bond insurance, or other credit enhancements that will provide the District with access to credit under terms and conditions as specified in such agreements when their use is judged cost effective or otherwise advantageous. Any such agreements shall be approved by the Board.

F. Bond Ratings

The Board, upon advice from the District's municipal advisor, may also consider obtaining a bond rating on any bonds issued.

G. Inclusion of Local Institutions

In the interest of promoting the Village, whenever practical and in the best interests of the Oak Brook Park District, local financial institutions are to be offered the opportunity to bid on debt instruments.

III. LEGAL CONSTRAINTS AND OTHER LIMITATIONS ON THE ISSUANCE OF DEBT

A. State Law

30 ILCS 305/0.0 I, et. seq.: the short title is "The Bond Authorization Act."

B. Authority for Debt

The District may, by bond ordinance, incur indebtedness or borrow money, and authorize the issue of negotiable obligations, including refunding bonds, for any capital improvement of property, land acquisition, or any other lawful purpose except current expenses, unless approved by the Board.

C. Debt Limitation

The debt limitations of the bond laws restrict the District to issues such that the aggregate principal indebtedness of the District does not exceed 2.875% of the taxable real property within the District.

D. Methods of Sale

Bonds will be sold in accordance with 30 ILCS 350/10 by means of a public or private sale as determined appropriate by the Board of Park Commissioners. The District may issue short-term notes by negotiated sale if the bond ordinance or subsequent resolution so provides.

1. Bonds. All bonds will mature within the period or average period of usefulness of the assets financed; and the bonds will mature in installments, the first of which is payable not more than three years from the dated date of the bonds.

Oak Brook Park District
Administrative Policies and Procedures

2. Municipal Advisor. To ensure independence, the Municipal Advisor retained by the District will not bid on nor underwrite any District debt issues on which it is advising.

E. Credit Implications

When issuing new debt, the District should not exceed credit industry benchmarks where applicable. Therefore, the following factors should be considered in developing debt issuance plans:

1. Rapidity of Debt Service Repayment

The District's general obligation bond issues should be structured whereby 100% of the debt will be retired within twenty years. It is also desirable to structure the District's general obligation bond issues so that at least 50% of the principal will be retired within 10 years.

2. Current General Fund Cash Reserve

The District should maintain a General Fund cash and investments balance equal to no less than three months of total annual expenditures, exclusive of capital expenditures (assumed to be expenditures that would be discretionary should the economy take a nosedive). The Recreation Fund should maintain a cash and investments balance equal to no less than two months of total annual expenditures, exclusive of capital expenditures. Such calculations, including a projection to April 30 (of the current fiscal year), shall be made on an annual basis by the Chief Financial Officer during the budget process.

IV. **DEBT ADMINISTRATION**

A. Financial Disclosures

The District shall prepare appropriate disclosures as required by the Securities and Exchange Commission, the federal government, the State of Illinois, rating agencies, underwriters, investors, agencies, taxpayers, and other appropriate entities and persons to ensure compliance with applicable laws and regulations. For more details on these disclosures, please refer to the District's Disclosure Policy.

B. Review of Financing Proposals

All capital financing proposals that involve a pledge of the District's credit shall be referred to the Chief Financial Officer who shall determine the financial feasibility and impact on existing debt of such proposal, and shall make recommendations accordingly to the Executive Director.

C. Refunding Policy

The District should consider refunding outstanding debt when legally permissible and financially advantageous. A net present value debt service savings of at least three percent or greater must be achieved.

Oak Brook Park District
Administrative Policies and Procedures

D. Investment of Borrowed Proceeds

The District acknowledges its ongoing fiduciary responsibilities to actively manage the proceeds of debt issued for public purposes in a manner that is consistent with Illinois statutes that govern the investment of public funds, and consistent with the permitted securities covenants of related bond documents executed by the District. The management of public funds should enable the District to respond to changes in markets or changes in payment or construction schedules so as to (i) minimize risk, (ii) ensure liquidity, and (iii) optimize returns.

E. Annual Evaluation of Refinancing Opportunities

The District shall on an annual basis ensure that an evaluation of the outstanding debt issues is performed to ascertain whether a refinancing is appropriate for any of the outstanding issues.

V. GLOSSARY OF TERMS

Ad Valorem Tax - A direct tax based "according to value" of property.

Advanced Refunding Bonds - Bonds issued to refund an outstanding bond issue prior to the date on which the outstanding bonds become due or callable. Proceeds of the advanced refunding bonds are deposited in escrow with a fiduciary, invested in United States Treasury Bonds or other authorized securities, and used to redeem the underlying bonds at maturity or call date.

Amortization - the process of paying the principal amount of an issue of bonds by periodic payments either directly to bondholders or to a sinking fund for the benefit of bondholders.

Arbitrage - Usually refers to the difference between the interest paid on the tax-exempt securities and the interest earned by investing the proceeds in higher yielding taxable securities. Internal Revenue Service regulations govern arbitrage (reference I.R.S. Reg. 1.103-13 through 1.103-15).

Arbitrage Bonds - Bonds which are deemed by the I.R.S. to violate federal arbitrage regulations. The interest on such bonds becomes taxable and the bondholders must include this interest as part of gross income for federal income tax purposes (I.R.S. Reg. 1.103-13 through 1.103-15).

Assessed Value - An annual determination of the just or fair market value of property for purposes of ad valorem taxation.

Basis Point - 1/100 of one percent.

Bond - Written evidence of the issuer's obligation to repay a specified principal amount on a date certain, together with interest at a stated rate, or according to a formula for determining that rate.

Bond Anticipation Notes (BANS) - Short-term interest bearing notes issued by a government in anticipation of bonds to be issued at a later date. The notes are retired from proceeds of the bond issue to which they are related.

Bond Counsel - An attorney retained by the District to render a legal opinion whether the District is authorized to issue the proposed bonds, has met all legal requirements necessary for issuance, and whether interest on the bonds is, or is not, exempt from federal and state income taxation.

Oak Brook Park District
Administrative Policies and Procedures

Bonded Debt - The portion of an issuers total indebtedness represented by outstanding bonds.

Direct Debt or Gross Bonded Debt – Is the sum of the total bonded debt and any unfunded debt of the issuer.

Net Direct Debt or Net Bonded Debt – Is the Direct debt less sinking fund accumulations and all self-supporting debt.

Total Overall Debt – Consists of Net direct debt plus the issuer's applicable share of the direct debt of all overlapping jurisdictions.

Net Overall Debt - Net direct debt plus the issuer's applicable share of the net direct debt of all overlapping jurisdictions.

Overlapping Debt - The issuer's proportionate share of the debt of other local governmental units which either overlap or underlie it

Callable Bond - A bond which permits or requires the issuer to redeem the obligation before the stated maturity date at a specified price, called the call price, usually at or above par value.

Capital Appreciation Bonds (CAB) - A long-term security on which the investment return is reinvested at a stated compound rate until maturity. The investor receives a single payment at maturity representing both the principal and investment return.

Certificates of Participation - Documents, in fully registered form, that act like bonds. However, security for the certificates is the government's intent to make annual appropriations during the term of a lease agreement. No pledge of full faith and credit of the government is made. Consequently, the obligation of the government to make basic rental payments does not constitute an indebtedness of the government.

Commercial Paper - Very short-term, unsecured promissory notes issued in either registered or bearer form, and usually backed by a line of credit with a bank.

Coupon Rate - The annual rate of interest payable on a coupon bond (a bearer bond or bond registered as to principal only, carrying coupons evidencing future interest payments), expressed as a percentage of the principal amount.

Debt Limit - The maximum amount of debt an issuer is permitted to incur under constitutional, statutory or charter provision.

Debt Service - The amount of money necessary to pay interest on an outstanding debt, the serial maturities of principal for serial bonds, and the required contributions to an amortization or sinking fund for term bonds.

Demand Notes (Variable Rate) - A short-term security which is subject to a frequently available put option feature under which the holder may put the security back to the issuer after giving specified notice. Many of these securities are floating or variable rate, with the put option exercisable on dates on which the floating rate changes.

Oak Brook Park District
Administrative Policies and Procedures

Double Barreled Bonds (Combination Bonds) - A bond which is payable from the revenues of a governmental enterprise and are also backed by the full faith and credit of the governmental unit.

Enterprise Funds - Funds that are financed and operated in a manner similar to private business in that goods and services provided are financed primarily through user charges.

General Obligation Bond - A bond for whose payment the full faith and credit of the issuer has been pledged. More commonly, but not necessarily, general obligation bonds are payable from ad valorem property taxes and other general revenues.

Lease Purchase Agreement (Capital Lease) - A contractual agreement whereby the government borrows funds from a financial institution or a vendor to pay for capital acquisition. The title to the asset(s) normally belongs to the government with the lessor acquiring security interest or appropriate lien therein.

Letter of Credit - A commitment, usually made by a commercial bank, to honor demands for payment of a debt upon compliance with conditions and/or the occurrence of certain events specified under the terms of the commitment.

Level Debt Service – An arrangement of serial maturities in which the amount of principal maturing increases at approximately the same rate as the amount of interest declines.

Long-Term Debt - Long-term debt is defined, for purposes of this policy, as any debt incurred whose final maturity is more than three years.

Maturity - The date upon which the principal of a municipal bond becomes due and payable to bondholders.

Mini-bonds - A small denomination bond directly marketed to the public.

Net Interest Cost (NIC) - The traditional method of calculating bids for new issues of municipal securities. The total dollar amount of interest over the life of the bonds is adjusted by the amount of premium or discount bid, and then reduced to an average annual rate. The other method is known as the true interest cost (see "true interest cost").

Offering Circular - Usually a preliminary and final document prepared to describe or disclose to investors and dealers information about an issue of securities expected to be offered in the primary market. As a part of the offering circular, an official statement shall be prepared by the District describing the debt and other pertinent financial and demographic data used to market the bonds to potential buyers.

Other Contractual Debt - Purchase contracts and other contractual debt other than bonds and notes. Other contractual debt does not affect annual debt limitation and is not a part of indebtedness within the meaning of any constitution or statutory debt limitation or restriction.

Par Value or Face Amount - In the case of bonds, Par Value or Face Amount is the amount of principal which must be paid at maturity.

Oak Brook Park District
Administrative Policies and Procedures

Parity Bonds - Two or more issues of bonds which have the same priority of claim or lien against pledged revenues or the issuer's full faith and credit pledge.

Principal - The face amount or par value of a bond or issue of bonds payable on stated dates of maturity.

Ratings - Evaluations of the credit quality of notes and bonds, usually made by independent rating services, which generally measure the probability of the timely repayment of principal and interest on municipal bonds.

Refunding Bonds - Bonds issued to retire bonds already outstanding.

Registered Bond - A bond listed with the registrar as to ownership, which cannot be sold or exchanged without a change of registration.

Reserve Fund - A fund which may be used to pay debt service if the sources of the pledged revenues do not generate sufficient funds to satisfy the debt service requirements.

Self Supporting or Self Liquidating Debt - Debt that is to be repaid from proceeds derived exclusively from the enterprise activity for which the debt was issued.

Short-Term Debt - Short-term debt is defined for purposes of this policy as any debt incurred whose final maturity is three years or less.

Spread - The income earned by the underwriting syndicate as a result of differences in the price paid to the issuer for a new issue of municipal bonds, and the prices at which the bonds are sold to the investing public, usually expressed in points or fractions thereof.

Tax-Exempt Bonds - For municipal bonds issued by the District tax-exempt means interest on the bonds are not included in gross income for federal income tax purposes; the bonds are not items of tax preference for purposes of the federal, alternative minimum income tax imposed on individuals and corporations; and the bonds are exempt from taxation by the State of Illinois.

Term Bonds - Bonds coming due in a single maturity.

True Interest Cost (TIC) - Also known as Canadian Interest Cost. A rate which, when used to discount each amount of debt service payable in a bond issue, will produce a present value precisely equal to the amount of money received by the issuer in exchange for the bonds. The TIC method considers the time value of money while the net interest cost (NIC) method does not.

Yield to Maturity - The rate of return to the investor earned from payments of principal and interest, with interest compounded semiannually and assuming that interest paid is reinvested at the same rate.

Zero Coupon Bond - A bond which pays no interest, but is issued at a deep discount from par, appreciating to its full value at maturity.

5.6 Violence and Aggressive Behavior Policy

Statement of Policy:

The safety and security of all employees is of primary importance at the Oak Brook Park District (the "District"). Threats, stalking, threatening and abusive behavior, or acts of violence, including any threat of or action to cause bodily harm or property damages to employees, visitors, customers, or District facilities or property, by anyone on District property, on a District-controlled site, or in connection with District employment, facilities, programs or services will not be tolerated. This includes words or actions made in jest.

Perceptions and circumstances vary; therefore, each situation must be assessed on a case-by-case basis, and considerable judgment and discretion must be exercised by each employee, as well as by the District as an organization, in determining if a violation of this policy has occurred, and what consequences may be appropriate. Pending the outcome of an investigation, a person who is initially determined to have violated this policy shall be removed from the District's premises as quickly as safety permits, and shall remain off the District's premises until the investigation is completed.

Employee Responsibilities:

All employees are responsible for notifying their Department Head or the Executive Director of any violations of this policy. "Reportable Behavior" includes, but is not limited to, threats, stalking, threatening and abusive behavior, or acts of violence, including any threat of or action to cause bodily harm or property damages, and also includes a series of seemingly minor offenses that appear to be a pattern of acts that can be interpreted as an intention or attempt to intimidate or interfere with the duties of District employees or with the District's facilities, programs, or services.

If a situation or incident is currently ongoing, or if the incident involves a threat of bodily harm, actual bodily harm or property damage, a call should be made to 911 immediately.

Even without a specific threat, all employees should report any behavior they have witnessed that they regard as potentially threatening or violent, or that could endanger the health or safety of an employee or customer.

Supervisors and Department Heads are required to notify the District's Executive Director and Safety Committee of all Reportable Behavior. Documentation of any incident shall be completed on an Accident/Incident Report (PDRMA Form 01) and, if an employee is injured, on Employee Injury/Illness Report (PDRMA Form 04). A copy of such report(s) shall be provided to the Safety Coordinator within twenty-four (24) hours, for transmission to PDRMA.

Employees are responsible to report all Reportable Behavior regardless of the relationship, including family relationships, between the individual who initiated the behavior and the person or persons being threatened or harmed.

Oak Brook Park District
Administrative Policies and Procedures

Investigation:

The Executive Director, Department Heads, and Safety Committee shall give top priority to all reported incidents of workplace violence and will work with PDRMA, local law enforcement officials, or other resources as appropriate to safeguard employees, protect the District's resources, conduct any needed investigations, and assist in ensuring that the appropriate administrative or criminal action is initiated.

Following investigation, the District will initiate a prompt and appropriate response, which may include, but is not limited to, suspension or limitation of any business or customer relationship; access to District facilities, programs or services; reassignment of an employee's job duties, suspension or termination of employment; referral to appropriate law enforcement agencies for arrest; or civil or criminal prosecution of the person or persons involved. The District reserves the right to take any necessary legal action to protect its employees and customers. Investigation results shall be conveyed, in writing, to the reporting employee, the Executive Director and the Safety Committee.

Confidentiality:

The District has developed confidentiality procedures that recognize and respect the privacy of the reporting employee with respect to sensitive information; however, the District cannot promise absolute confidentiality. A report to a law enforcement agency or other governmental agency may be necessary depending on the circumstances but, in any case, the District will seek to maintain the anonymity of the reporting individual when and to the extent reasonably possible.

Employee Assistance Programs:

Various assistance programs are available to employees who are exposed to a workplace violence incident. Department Heads shall offer formal assistance via available programs to any employee who has been a victim of or has witnessed an incident of violence.

Discipline of an Employee Who Perpetrates Violence:

Department Heads shall initiate appropriate disciplinary action against any employee who has perpetrated violence, in consultation with the Executive Director and Safety Committee.

Parent Code of Conduct as to District Programs Involving Minor Participants:

The District seeks to provide successful and positive experiences in developmental sports and recreational activities for minors, by offering fundamental skill and social skill development and fun for all participants.

Parents and adult guardians of minor participants in District programs shall refrain from harassing, berating, insulting, or otherwise engaging in any inappropriate conduct toward staff, volunteers and, when applicable, coaches, participants, other parents, guests, and officials. Appropriate discussion of concerns regarding a parent's child, a program or activity with the appropriate staff, coach or league supervisor is welcomed, so long as the discussion is undertaken in a courteous, constructive, and respectful manner. To this end, parents and adult guardians shall follow these guidelines:

Oak Brook Park District
Administrative Policies and Procedures

- Encourage good sportsmanship and appropriate behavior by demonstrating mature and respectful behavior; by communicating and dealing with conflict in a polite, courteous, and constructive manner; and by serving as a positive role model.
- Place the emotional and physical well-being of minor participants ahead of any personal desire.
- Reinforce to their own child the importance of conducting oneself in a safe and respectful manner, and of treating other children, staff, volunteers, coaches and officials with respect, regardless of race, gender, creed, disability, religion, sexual orientation or ability.
- Support and show a positive attitude toward staff, volunteers, coaches and officials.
- Remember that District activities and programs involving minor participants are for their benefit and not for the benefit of adult spectators.
- Use best efforts to make programs and activities involving minor participants a fun experience for them.
- Inform the District of any special need, impairment or ailment that may affect the safety of their own child or others.

Violation of these guidelines may be cause for suspension of access to District facilities, programs and services for the parent or adult guardian and, potentially, for ~~his or her~~their child.

Right of Access to District Facilities, Programs and Services:

The District recognizes that, in the absence of good reasons to the contrary, members of the public have a right of access to District facilities, programs and services, and it welcomes and responds to constructive criticism from the public. Nevertheless, there are circumstances in which access to District facilities, programs and services will be limited or suspended as to certain individuals, by notice sent to the individual in writing. Licensee acknowledges that District shall not provide any supervision, security or protection in connection with any Licensed Uses. District shall not be liable or responsible for damage caused by fire, vandalism or other casualty to, or for the destruction, loss, or theft of, any vehicle, equipment, material, supply or other personal property at any time during the Agreement, except such proximately caused by the willful and wanton conduct of District. To the fullest extent permitted by the laws of the State of Illinois, Licensee hereby forever waives, relinquishes and discharges District, and its park commissioners, officers, employees and agents from, all claims of every nature whatsoever, which Licensee may have at any time against District, its Park Board, officers, employees and/or agents, including without limitation claims for personal injury or property damage sustained or incurred by Licensee or any person claiming by, through or under Licensee, relating directly or indirectly to any Licensed Uses, the condition of Central Park North Fields or the Licensed Property, or use by District or Licensee of Central Park North Fields or the Licensed Property except claims that involve actions proximately caused by the willful and wanton conduct of District.

15. Indemnification and Hold Harmless. Licensee hereby indemnifies and shall defend and hold harmless the District, its park commissioners, officers, employees, volunteers and agents (the "Park Indemnitees") from and against any and all suits, liabilities, claims, losses, costs, and damages, including but not limited to consequential damages, penalties, fines and expenses, of every kind or nature whatsoever, including without limitation court costs and attorneys', paralegals' and consultants' fees (the "Legal Expenses"), suffered, incurred or sustained by any of the Park Indemnitees, including without limitation, liabilities for the death of, or injury to, any person or the loss, destruction or theft of, or damage to, any property, or liabilities imposed under any Environmental Laws, to the extent relating directly or indirectly to, or arising directly or indirectly from, the exercise by Licensee, its employees, agents and invitees, or any other person acting on its or their behalf or with its or their authority or permission, of the obligations, rights or privileges imposed upon, or granted to, Licensee under this Agreement or their use of the Licensed Property. Such obligation shall not be construed to negate, abridge, or otherwise reduce any other right or obligation of indemnity which would otherwise exist as to any party or person described in this Paragraph 17. Licensee shall similarly defend, indemnify and hold harmless the Park Indemnitees against and from any and all suits, claims, losses, costs, damages (including but not limited to consequential damages), penalties, fines and expenses, including without limitation Legal Expenses, suffered, sustained or incurred by any of the Park Indemnitees to the extent resulting from Licensee's breach of any provision of this Agreement or otherwise incurred by District in enforcing the terms of this Agreement.

16. Insurance to be Maintained by Licensee. In addition to, and without limitation of, Licensee's obligations under Paragraphs 16 and 17 above, and at no cost to District, Licensee

shall obtain and keep in full force and effect for so long as any claim relating to any Licensed Uses legally may be asserted, comprehensive general liability and property damage, and business auto liability insurance written to include the coverages for not less than the minimum limits (or greater if required by law) set forth in **Exhibit C** attached to and incorporated by reference in this Agreement. Prior to commencement of any of the Licensed Uses, Licensee shall obtain and deliver to District a certificate of insurance naming District as an additional insured.

17. No Property Interest. This Agreement and the License granted hereunder do not convey to, or create in favor of, Licensee, any legal or equitable title or property interest in whole or in part to Central Park North Fields or any portion thereof, including the Licensed Property; it being acknowledged that this Agreement is a license and not a lease and merely grants temporary and limited permission to Licensee to use the Licensed Property on and subject to the terms and conditions hereof. Licensee expressly acknowledges and agrees that any statute or ordinance relating to landlord/tenant matters or forcible entry and detainer is not applicable to this Agreement and Licensee expressly waives any and all rights to which Licensee might otherwise be entitled under said laws.

18. Assignment Prohibited. Licensee shall not assign, transfer, or otherwise convey to any person or entity whatsoever any of its rights or duties under this Agreement, in whole or in part, or otherwise permit the use of the Licensed Property or any portion thereof, by any person contrary to the provisions of this Agreement.

19. Termination. District reserves the right to terminate the License and any and all rights and privileges hereby granted to Licensee under this Agreement immediately upon notice to Licensee in the event:

- (a) Licensee violates or fails to perform its obligations under any of the terms, conditions or provisions of this Agreement and fails to cure any such breach of this Agreement, which by its nature is susceptible to cure, within thirty (30) days after Licensee's receipt of written notice of such breach. Notwithstanding the foregoing, and depending upon the nature of the breach, the District reserves the right, in its sole discretion, to suspend the License until such time as Licensee has cured said breach or has provided the District with adequate security, as determined by the Park District in its sole discretion, to cover any potential liability that may arise as a result of said breach. If Licensee violates or fails to perform its obligations under any of the terms, conditions or provisions of this Agreement and fails to cure any such breach of this Agreement as such cure process described above may apply, District may pursue any and all legal and equitable remedies.
- (b) District receives notice of an alleged violation of any federal, state, or local law, ordinance, rule or regulation relating to Licensee's conduct of any Licensed Uses on, or use of, all or any part of the Licensed Property. Notwithstanding the foregoing, in the event the District receives notice of an alleged violation, and depending upon the nature of said violation, the District may elect, in its sole discretion, to suspend the License until such time as the alleged violation has been fully adjudicated by the proper official or other authority. The District may also elect, in its sole discretion, to allow Licensee to continue its Licensed Uses under

this Agreement provided that Licensee provides the District with adequate security, as determined by the Park District in its sole discretion, to cover any potential liability that may arise if the alleged violation is substantiated. If the Park District elects to suspend the License after receipt of notice of an alleged violation, and said violation is later determined to be unfounded, the term of this Agreement shall be automatically extended for a period of time equal to the length of the suspension.

- (c) District is ordered to do so by any regulatory body or other governmental agency having jurisdiction.
- (d) Licensee shall have (a) filed a voluntary petition in bankruptcy or made an assignment for the benefit of creditors; (b) consented to the appointment of a receiver or trustee of all or part of its property; or (c) an involuntary petition in bankruptcy shall have been filed in regard to Licensee and the same shall not have been dismissed within ten (10) days of such filing.
- (e) The Licensed Property is taken by another governmental body through the exercise of its powers of eminent domain.
- (f) The Licensed Property, Central Park North Fields or any portion(s) thereof, become subject to any tax
- (g) The Board of Park Commissioners of the District is unable to, or abandons its plans to construct the Improvements.

District further reserves the right to terminate the License and this Agreement if District requires any of the Licensed Property in furtherance of its park and recreation purposes, which would preclude the continuation of any Licensed Uses, in which event District will give Licensee not less than six (6) months prior written notice. In the event that this Agreement is terminated by District because District requires any of the Licensed Property in furtherance of its park and recreation purposes prior to an anniversary date, Licensee shall be entitled to a refund in an amount equal to the License Fee divided by 365 and multiplied by the number of days that would have been remaining until the anniversary date of the License.

The indemnification and hold harmless obligations and all other obligations of Licensee accruing prior to the expiration or termination of this Agreement or the License granted Licensee hereunder shall survive the expiration or termination of the Agreement or License.

Licensee reserves the right to terminate the License immediately upon notice to District in the event:

- (a) District violates or fails to perform its obligations under any of the terms, conditions or provisions of this Agreement and fails to cure any such breach of this Agreement, which by its nature is susceptible to cure, within thirty (30) days after District's receipt of written notice of such breach. If District violates or fails to perform its obligations under any of the terms, conditions or provisions of this Agreement and fails to cure any such breach of this Agreement as such cure process described

above may apply, Licensee may pursue any and all legal and equitable remedies.

- (b) Licensee shall have (a) filed a voluntary petition in bankruptcy or made an assignment for the benefit of creditors; (b) consented to the appointment of a receiver or trustee of all or part of its property; or (c) an involuntary petition in bankruptcy shall have been filed in regard to Licensee and the same shall not have been dismissed within ten (10) days of such filing.
- (c) The Licensed Property, Central Park North Fields or any portion(s) thereof become subject to any tax
- (d) The Board of Park Commissioners of the District is unable to, or abandons its plans to construct the Improvements.

Neither Party shall be liable for any consequential damages incurred by the other Party. Except for claims arising from District's willful and wanton conduct, in no event shall District's aggregate liability, if any, exceed the sum total of the License Fee paid during the six month period immediately preceding the accrual of such liability.

20. No Implied Waiver of District's Rights. No waiver of any rights which District has in the event of any default or breach by Licensee under this Agreement shall be implied from District's failure to take any action on any such breach or default and no express waiver shall affect any breach or default other than the breach or default specified in the express waiver and then only for the time and to the extent therein stated.

21. Notices. Notices shall be deemed properly given on the date received if given in writing and either (a) hand delivered; or (b) sent by facsimile transmission before 5:00 pm; or (c) sent by email before 5:00pm; or (d) sent by registered or certified mail, return receipt requested, and such notice is hand delivered or sent to the Parties at their respective addresses provided below, or as either Party may otherwise direct in writing to the other Party from time to time. EXHIBIT C
INSURANCE REQUIREMENTS

Licensee shall obtain insurance of the types and in the amounts listed below.

A. Commercial General and Umbrella Liability Insurance

Licensee shall maintain commercial general liability (CGL) and, if necessary, commercial umbrella insurance with a limit of not less than \$2,000,000 each occurrence. If such CGL insurance contains a general aggregate limit, it shall apply separately to this location.

CGL insurance shall be written on Insurance Services Office (ISO) occurrence form CG 00 01 04 13, or a substitute form providing equivalent coverage, and shall cover liability arising from premises, operations, independent contractors, products-completed operations, personal injury and advertising injury, and liability assumed under an insured contract (including the tort liability of another assumed in a business contract).

District, and its park commissioners, officers, employees, agents, and volunteers (collectively the "Additional Insureds") shall be included as an insured under the CGL, using ISO additional insured endorsement CG 20 26 or a substitute providing equivalent coverage, and under the commercial umbrella, if any. This insurance shall apply as primary insurance with respect to any other insurance or self-insurance afforded to District. Any insurance or self-insurance maintained by the District shall be excess of Licensee's insurance and shall not contribute with it.

B. Business Auto and Umbrella Liability Insurance

If applicable, Licensee shall maintain business auto liability and, if necessary, commercial umbrella liability insurance with a limit of not less than \$1,000,000 each accident. Such insurance shall cover liability arising out of any auto including owned, hired and non-owned autos.

Business auto insurance shall be written on Insurance Services Office (ISO) form CA 00 01, CA 00 05, CA 00 12, CA 00 20, or a substitute form providing equivalent liability coverage. If necessary, the policy shall be endorsed to provide contractual liability coverage equivalent to that provided in the 1990 and later editions of CA 00 01.

C. General Insurance Provisions

1. Evidence of Insurance

Prior to using the Licensed Property, Licensee shall furnish District with a certificate(s) of insurance and applicable policy endorsement(s), executed by a duly authorized representative of each insurer, showing compliance with the insurance requirements set forth above.

All certificates shall provide for 30 days' written notice to District prior to the cancellation or material change of any insurance referred to therein. Written notice to District shall be by certified mail, return receipt requested. If the certificate does not provide for 30 days' written notice to District prior to cancellation or material change of any insurance referred to in the certificate, Licensee shall furnish such written notice to District by certified mail, return receipt requested, not less than thirty (30) days prior to cancellation or material change.

Failure of District to demand such certificate, endorsement or other evidence of full compliance with these insurance requirements or failure of District to identify a deficiency from evidence that is provided shall not be construed as a waiver of Licensee's obligation to maintain such insurance.

District shall have the right, but not the obligation, of prohibiting Licensee from occupying the Licensed Property until such certificates or other evidence that insurance has been placed in complete compliance with these requirements is received and approved by District.

Failure to maintain the required insurance may result in termination of this Agreement at District's option.

Licensee shall provide certified copies of all insurance policies required above within 10 days of District's written request for said copies.

2. Acceptability of Insurers

For insurance companies which obtain a rating from A.M. Best, that rating should be no less than A VII using the most recent edition of the A.M. Best's Key Rating Guide. If the Best's rating is less than A VII or a Best's rating is not obtained, the District has the right to reject insurance written by an insurer it deems unacceptable.

3. Cross-Liability Coverage

If Licensee's liability policies do not contain the standard ISO separation of insured's provision, or a substantially similar clause, they shall be endorsed to provide cross-liability coverage.

4. Deductibles and Self-Insured Retentions

Any deductibles or self-insured retentions must be declared to the District. At the option of the District, the Licensee may be asked to eliminate such deductibles or self-insured retentions as respects the District, its park commissioners, officers, officials, employees, volunteers and agents or required to procure a bond guaranteeing payment of losses and other related costs including but not limited to investigations, claim administration and defense expenses.

After the effective date of this Policy, the District will not purchase any Movable Soccer Goal unless it is tip resistant. A Movable Soccer Goal whose inside measurements are 6.5 to 8 feet high and 18 to 24 feet wide is not tip-resistant unless it conforms to the American Society for Testing and Materials (ASTM) standard F2673-08 for tip-resistant Movable Soccer Goals or is otherwise equipped with another design-feature approved by the U.S. Consumer Product Safety Commission. NOTE: The Guidelines for Movable Soccer Goal Safety published by the U.S. Consumer Product Safety Commission state that there are several different ways to properly secure a soccer goal and that the number and type of anchors to be used depend on a number of factors, such as soil type, soil moisture content, and total goal weight. The following guidelines are taken from the CPSC recommendations for Anchoring/Securing/Counterweighting goals. It is advisable to adapt Attachment 1 to the extent the recommendations are appropriate to a District's particular situation.

GUIDELINES FOR SAFELY SECURING MOVABLE SOCCER GOALS

According to the U.S. Consumer Product Safety Commission (CPSC), a properly anchored / counter-weighted movable soccer goal is much less likely to tip over. Accordingly, it is **IMPERATIVE** that **ALL** movable soccer goals are always anchored properly (e.g., see Figure 2 below) and that they are secured to the ground (preferably at the rear of the goal), making sure the anchors are flush with the ground and clearly visible.

There are several different ways to secure a Movable Soccer Goal. The number and type of anchors to be used will depend on a number of factors, such as soil type, soil moisture content, and total goal weight. Each goal shall be secured in accordance with the appropriate anchoring system as set forth below.

In addition, warning labels required by the District's Soccer Goal Safety and Education Policy will be attached to each goal. Nets shall be secured to posts, crossbars, and backdrops with tape or Velcro straps at intervals of no less than one every four feet.

Anchor Types

1. Auger style

This style anchor is “helical” shaped and is screwed into the ground. A flange is positioned over the ground shoes (bar) and rear ground shoe (bar) to secure them to the ground. A minimum of two auger-style anchors (one on each side of the goal) are recommended. More may be required, depending on the manufacturer’s specifications, the weight of the goal, and soil conditions.

Figure 3.1: Auger Style Anchor

2. Semi-permanent

This anchor type is usually comprised of two or more functional components. The main support requires a permanently secured base that is buried underground. One type (3.2a) of semi-permanent anchor connects the underground base to the soccer goal by means of 2 tethers. Another design (3.2b) utilizes a buried anchor tube with a threaded opening at ground level. The goal is positioned over the buried tube and the

bolt is passed through the goal ground shoes (bar) and rear ground shoe (bar) and screwed into the threaded hole of the buried tube.

Figure 3.2a: Semipermanent Anchor

Figure 3.2b: Semipermanent Anchor

3. Peg or Stake style (varying lengths) Anchor

Typically, two to four pegs or stakes are used per goal (more for heavier goals) (Figure 3.3). The normal length of a peg or stake is approximately 10 inches (250mm). Care should be taken when installing pegs or stakes. Pegs or stakes should be driven into the ground with a sledge-hammer as far as possible and at an angle, if possible, through available holes in the ground shoes (bar) and rear ground shoe (bar) to secure them to the ground. If the peg or stake is not flush with the ground, it should be clearly visible to persons playing near the soccer goal. Stakes with larger diameters or textured surfaces have greater holding capacity.

Oak Brook Park District
Administrative Policies and Procedures

Figure 3.3: Peg or Stake Style Anchor

4. J-Hook Shaped Stake style

This style is used when holes are not pre-drilled into the ground shoes (bars) or rear ground shoe (bar) of the goal. Similar to the peg or stake style, this anchor is hammered, at an angle, if possible, directly into the earth. The curved (top) position of this anchor fits over the goal member to secure it to the ground (Figure 3.4). Typically, two to four stakes of this type are recommended (per goal), depending on stake structure, manufacturers specifications, weight of goal, and soil conditions. Stakes with larger diameters or textured surfaces have greater holding capacity.

Figure 3.4: J-Hook Anchor

5. Sandbags/Counterweights

Sandbags or other counterweights could be an effective alternative on hard surfaces, such as artificial turf, where the surface cannot be penetrated by a conventional anchor (i. e., an indoor practice facility) (Figure 3.5). The number of bags or weights needed will vary and must be adequate for the size and total weight of the goal being supported.

6. Net Pegs

These tapered, metal stakes should be used to secure only the NET to the ground (Figure 3.6). Net pegs should NOT be used to anchor the movable soccer goal.

SAMPLE NOTICE

[INSERT DATE]

TO WHOM IT MAY CONCERN: All parents and guardians of soccer players:

One of our primary objectives is that children have safe recreation areas. To that end, soccer goals should remain securely anchored to the ground and nets firmly attached to the goals.

In an effort to keep the goals and nets secure and children safe, you are required to advise your children/soccer players and any other person accompanying you for whom you are responsible that the following is strictly prohibited: moving any soccer goals and any use of a soccer goal that is inconsistent with soccer-related activity, including without limitation, playing, climbing, or hanging on any part of the soccer goal. This especially applies to children climbing on or hanging from nets or goal frames. According the U.S. Consumer Product Safety Commission, these activities can result in serious injury, including death.

If you observe any child inappropriately using a soccer goal or net, immediately and politely ask the child to stop. If the activity continues, please notify a coach or referee as soon as possible. Players violating this rule may be forced to sit out, at the coach's discretion.

Finally, if you see any soccer goal that is not anchored down or any net that is not firmly secured to the goal, please notify a coach or referee immediately.

Sincerely,

6.7 Procedures for Park Master Planning Processes

Formatted: Font: (Default) Calibri, 14 p

Formatted: Font: (Default) Calibri

This procedure outlines the steps staff should take for master planning processes.

1. Reference plans and documentation

As leaders of the master planning process, staff will provide the Board of Commissioners, architects, contractors, consultants, and any other key individuals or groups with access to documentation and information including, but not limited to:

- Village of Oak Brook master plan
- Oak Brook Park District master ~~plan~~vision
- Oak Brook Park District community wide needs assessment
- Oak Brook Park District strategic plan
- Any other pertinent information regarding Oak Brook as well as the surrounding communities

2. Participation

Community input is a vital component of the master planning process. A minimum of one (1) public meeting will be held. In addition to a public meeting(s), focus groups and surveys may be utilized to gain community input. Community input should come from a variety of areas and depending on the project may include other governmental agencies, community organizations, private businesses, as well as individual citizens, and park users.

3. Staff involvement is crucial to effective master planning. Focus groups within the agency should be comprised of key staff members with knowledge of district operations, needs, and history. Prior to bringing master planning ideas to the public, the Oak Brook Park District must develop goals and methods to achieve those goals. This is often accomplished with the use of outside consulting through a private firm or a university. Using professional services to assist with planning can be an effective method for collecting, organizing, and processing data.

4. Communication with the community and among staff must be clear and concise. When conducting planning meetings, visual aids such as electronic presentations, as well as,

architectural renderings can be effective tools to communicate the message and plan for the district.
